CALIFORNIA ENERGY COMMISSION

2. State and justify the length of time the Energy Commission should keep the information or data confidential.

3(a). State the provision(s) of the Public Records Act (Gov. Code, § 6250 et seq.) or other law that allows the Energy Commission to keep the information or data confidential, and explain why the provision(s) apply to that material.

3(b). Discuss the public interest in nondisclosure of the material submitted for a confidential designation. If the material contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please state how it would be lost, the value of the information to the applicant and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

4. State whether the information or data can be disclosed if it is aggregated with other information or masked to conceal certain portions (including but not limited to the identity of the applicant). State the degree of aggregation or masking required. If the data cannot be disclosed even if aggregated or masked, explain why.

5. State how the material is kept confidential by the applicant and whether it has even been disclosed to a person other than an employee of the applicant. If it has, explain the circumstances under which disclosure occurred.

I certify under penalty of perjury under the laws of the State of California that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge and that I am authorized to make the application and certification on behalf of the applicant.

b. Parts of the information or data for which you request confidential designation.

The trade secret information and cultural resources information (attachments A, B, C, D, E, F, G, H, I) should be kept confidential in its entirety.

2. State the length of time the record should be kept confidential, and provide justification for the length of time.

The trade secret information (attachments A, B, C, D, E, F, G) should be kept confidential for the operating life of the facility. Cultural resources information (attachments H, I) should be kept confidential in its entirety as it contains sensitive and confidential information regarding cultural resources, including tribal cultural resources and archaeological resources.

3. Cite and discuss:

- a. the provisions of the Public Records Act or other law that allow the Commission to keep the information or data confidential, and explain why the provision applies to the material.*
- b. the public interest in nondisclosure of the material submitted for confidential designation. If the material contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please state how it would be lost, the value of the information to the applicant and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.*

Trade secret information (attachments A, B, C, D, E, F, G): The Public Records Act specifically exempts “corporate financial records, corporate proprietary information including trade secrets, and information relating to siting within the state furnished to a government agency by a private company for the purpose of permitting the agency to work with the company in retaining, locating, or expanding a facility within California.” (Gov’t Code § 7927.605(a).) Attachments A, B, C, D, E, F, and G contain trade secrets related to the Applicant’s technologies, as well as commercially valuable information related to the Applicant’s interconnection (including costs and operating procedures). The attachments include commercially sensitive transmission planning and cost information that falls within the definitions of “trade secret” and has independent economic value from not being generally known to the public or to the Applicant’s competitors. Disclosure of attachments A, B, and C may cause a loss of competitive advantage to the Applicant, as competitors could ascertain transmission planning and cost information that may affect bids in competitive solicitations. Attachments A, B, and C are also non-public documents that include commercially sensitive, transmission planning and cost information related to the siting of a wind energy facility, exempt from disclosure under section 7927.605(a). The Applicant understands that CAISO maintains as confidential all commercially sensitive information relating to a submitter’s technology, research and development, business affairs, and pricing contained in interconnection study documents for the term of the interconnection

agreement. The CEC previously maintained as confidential the Applicant's CAISO System Impact Study, see TN 248746, and should similarly maintain this additional CAISO information as confidential.

Cultural resources information (attachments H, I): Cultural resources information (attachments H, I): The Public Records Act exempts from disclosure (1) information regarding Native American places, features, and objects and (2) archaeological site information and reports maintained by or in the possession of state or local agencies. (See Govt. Code §§ 7927.000, 7927.005.) These provisions apply to attachments H and I, which contain information regarding Native American places, features, and objects, and archaeological site information and reports maintained as confidential by the California Office of Historic Preservation and California Department of Parks and Recreation.

Government Code section 7922.000 further provides that an agency may withhold information from disclosure where the public interest served by nondisclosure clearly outweighs the public interest of disclosure. The public interest in nondisclosure outweighs that of disclosure, as disclosure may enable the location of sensitive cultural resources sites by thieves, vandals, or persons conducting unauthorized collection of materials.

4. *State whether the information may be disclosed if it is aggregated with other information or masked to conceal certain portions, and if so the degree of aggregation or masking required.*

Trade secret information (attachments A, B, C, D, E, F, G): The Applicant considered whether it would be possible to aggregate or mask portions of the trade secret information (attachments A, B, C, D, E, F, G), and it may be possible to aggregate or redact certain portions. However, the Applicant requests that the CEC consult with both the CAISO and the Applicant to make this determination to ensure that important trade secret information is not disclosed.

Cultural resources information (attachments H, I): The Applicant considered whether it would be possible to aggregate or mask the information contained within the cultural resources documents (attachments H, I). However, even with masking or aggregation, the Applicant believes that disclosure of the documents could improperly disclose the location of sensitive cultural resources sites. Information within the cultural resources documents that can be publicly disclosed will be provided in the Cultural Resources section of the Application for Certification.

5. *State whether and how the information is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant, and if so under what circumstances.*

Trade secret information (attachments A, B, C, D, E, F, G): The trade secret information is accessible only to employees or consultants providing essential services to the Project, and to certain entities such as the CAISO and CEC that have responsibilities relating to transmission planning or the Project.

Cultural resources information (attachments H, I): The Applicant has not disclosed any of the subject information in the cultural resources information (attachments H, I) to anyone other than its employees,

attorneys, and consultants working on the Project. The cultural resources information also was disclosed confidentially to Shasta County during its previous consideration of the Project.

I certify under penalty of perjury that the information contained in this Application for Confidential Designation is true, correct, and complete to the best of my knowledge and belief. I am authorized to make this Application and Certification on behalf of the Applicant.
