The California Energy Commission (CEC) will host a public workshop to solicit stakeholder feedback on the proposed Distributed Electricity Backup Assets (DEBA) program guidelines.

A quorum of commissioners may participate, but no votes will be taken. The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

Staff will present the proposed guidelines for the DEBA Program. The guidelines establish the general rules of the program, including eligibility requirements, evaluation criteria, DEBA incentive funding mechanisms, and the payment process. The proposed guidelines will be posted prior to the workshop at [Docket No. 22-RENEW-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-RENEW-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-RENEW-01>.

There will be a period for Q&A and public comment at the end of the workshop.

A detailed agenda will be posted prior to the workshop at [Docket No. 22-RENEW-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-RENEW-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-RENEW-01>.

Background

Created by Assembly Bill (AB) 205 (Ting, Chapter 61, Statutes of 2022) as part of the Strategic Electricity Reliability Reserve, the DEBA program incentivizes the construction of cleaner and more efficient distributed energy assets that serve as on-call emergency supply or load reduction for the state's electrical grid during extreme events. The CEC may also allocate monies for efficiency upgrades, maintenance, and capacity additions to existing power generators, and for deployment of new zero or low emission technologies, including fuel cells and energy storage, at existing facilities.
