

DOCKETED	
Docket Number:	13-ATTCP-01
Project Title:	Acceptance and Training Certification
TN #:	251976
Document Title:	Edit_NEMIC ATTCP 2022 Repeated Application for Confidential Designation_230828
Description:	This is a letter and application to the Docket Unit requesting repeated application for confidential designation. The reasoning for submitting under confidentiality is due to information contained in the documents being proprietary and containing industry trade secrets of training, business methods, and procedures - as well as changes enclosed in the Amendment to the Application do not reflect substantive changes from the application previously granted confidentiality.

Re: NEMIC Repeated Application for Confidential Designation

Dear Docket Unit:

I write on behalf of the National Energy Management Institute Committee (“NEMIC”), to submit this repeated application for confidential designation of certain specified attachments to NEMIC’s Amendment to its Application to become a Mechanical Acceptance Test Technician Certification Provider under California Code of Regulations (“CCR”), Title 24, Part 6, § 10-103.2 (f) (“Amendment Process”). These documents are submitted under Docket 13-ATTCP-01.

On November 26th, 2013, the Executive Director of the California Energy Commission granted confidential status for the NEMIC ATTCP Application. The California Energy Commission has granted confidential designation for amended portions of NEMIC’s ATTCP Application on April 21, 2014, June 14, 2016, July 12, 2018, April 1, 2019, and June 10th, 2023.

3180 Fairview Park Drive, Suite 400 • Falls Church,
Virginia 22042
(O) 703.739.7100 • www.nemiconline.org

The 2022 Amended Mechanical ATTCP Application includes updates to the following attachments:

- NEMIC ATTCP Application Amendment 2022_Clean_230828
- NEMIC ATTCP Application Amendment 2022_Redline_230828

The information contained in the application is NOT substantially different than the previously submitted information, and **the rest of the document and the reasons for which NEMIC wishes the application to be confidential remain the same and have non-substantive changes**, which is why NEMIC is submitting the application addendum in accordance with California Building Energy Efficiency Standards 10.103.1(f)B: Substantive Changes. **The amended appendices are substantially similar to the previously submitted information and all facts and circumstances relevant for confidentiality remain unchanged.**

The reasoning for submitting under confidentiality is due to information contained in the documents being proprietary and containing industry trade secrets of training, business methods, and procedures.

Please contact me right away if there is any confusion over which portions of the document are to be confidential.

I certify under penalty of perjury under the laws of California that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge and that I am authorized to make the application and certification on behalf of the applicant.

Sincerely,

Lisa Davis

NEMIC ATTCP Administrator
