*IN THE MATTER OF:*Electric Vehicle Chargers at California
Military Bases Workshop

DOCKET NO. 23-TRAN-04

NOTICE OF REMOTE-ACCESS
WORKSHOPRE: Pre-Solicitation Workshop for Electric
Vehicle Chargers at California Military Bases**Notice of Pre-Solicitation Workshop for
Electric Vehicle (EV) Chargers at California Military Bases****November 16, 2023
10:00 a.m. – 12:00 p.m. (PDT)
Remote Access Only**

Staff from the California Energy Commission (CEC) will host a remote-access workshop to discuss and receive feedback on a draft solicitation concept for an EV charger infrastructure project at military bases in California with the goal of accelerating zero-emission vehicle (ZEV) adoption. The proposed solicitation is intended to focus on EV infrastructure and charging station deployment for use by non-tactical government-owned vehicles and privately-owned vehicles with authorized access to military bases (e.g., personnel, delivery vehicles, visitors). In addition, the CEC intends to hear directly from the individual military departments in California and entities working for the military to better understand how State funds for EV charger infrastructure investments can best be used alongside Federal investments to increase EV charger deployment. Feedback received may be used in the development of a solicitation that the CEC plans to release in 2024.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

CEC staff will present information about the proposed solicitation concept, and then conduct a public comment session. The workshop will include:

- Welcome and Introductions
- CEC staff presentation on proposed military EV charger infrastructure funding opportunity concepts, including proposed eligibility and project requirements and proposed timeline.

- Public Comment/Question and Answers
- Next Steps and Close

A more detailed agenda will be available prior to the workshop within CEC Docket Log 23-TRAN-04 at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-TRAN-04>

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007), created the Clean Transportation Program. The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change and clean air goals. AB 126 (Reyes, Chapter 319, Statutes of 2023) reauthorized the funding program through July 1, 2035 and focused the program on zero-emission transportation.

The CEC seeks to support the acceleration of ZEV adoption and clean transportation solutions in California including at military bases and to increase access to enabling infrastructure while mitigating the environmental impacts from fossil fuels.
