## **Retroactive Rebates**

Please don't punish those of us who acted on the benefits of the IRA in 2023 by preventing us access to these rebates. We were acting with the understanding that funding was in effect at the outset when the law went into effect January 1, 2023. And as early adopters of these technologies we have benefitted both ourselves and our communities with the reduction of energy consumption as intended by the law. Further it is unlikely that enough of us participated to be worth the ill-will it will create to refuse us this opportunity.
