## **Fountain Wind Project**

I am writing in support of moving forward with the Fountain Wind project. I was raised in Shasta County and I am sympathetic to local residents who will be impacted by the construction and by the change to views. However I think the fire safety concerns can be readily managed. The project will be developed in area with good access from 299 and near an existing wind farm. I respect the input from the Pit River Tribe. Voices of indigenous peoples have been ignored for too long. I would welcome adjustments to the project that might help address Tribal concerns. Nonetheless I feel that the need for new renewable sources of power is absolutely urgent. Climate change threatens all of our forests, and the entire legacy of native peoples in the north state. I urge the CEC to approve this project. Thanks for your consideration.
