COMMENT For Docket 22-BTSD-01

I do not agree with the proposed change to not allow Field Verification and Diagnostic Testing for close family relatives on the approaching energy code. I have family members that own an HVAC company that is completely independent of my HERS Verification company. I have been through multiple Quality Assurance Field Checks with Calcerts and have had no issues as we do things according to law. This proposed change will cause me to unfairly lose business. Please consider changing.
