IRA Energy Rebate Program Hurry up!

I have delayed my installation of a heat pump HVAC system until these rebates are made available. My air conditioner is 29 years old, my gas heater is 18 years old and either or both could fail at any moment. Please hurry and make these \$8000 LMI rebates available so I can replace my inefficient and failing equipment with a new heat pump unit. If either fails before the rebate is available, that will be unfortunate.
