## **Stop Fountain Wind**

I'm voicing my concern about a project that would be really bad for the communities in Shasta county. We're a county with beautiful natural resources. The pit river area is a sanctuary for fishing, camping, and recreation that also has a long cultural history of state infraction on indigenous tribes. This is an area that should not be disrupted by an energy project of any kind. We need more sensitivity to the spiritual and recreational value of the area and more respect for our land, not less. I'm very concerned that this project will be much like the dam projects of past decades " short sighted, with an unexpected environmental toll that ultimately requires a costly tear down and remediation process funded by our children and grandchildren.
