## **Stop fountain wind project**

The Fountain Wind Project has been rejected multiple times by Shasta County and is not in compliance with the county ordinances. The value of property in the area will be greatly negatively affected, not just regarding the housing market, but the wildlife and biological resources will be greatly impacted for the worse. This project violates the Pit River Tribe's right to their land and culture, as well as other local tribes. It elevates the wildfire risk and provokes impediments to aerial firefighting. It will also be a great disruption to the peace of those inhabiting the land, worsening the air quality and being a nuisance with noise and vibration. It will destroy the beauty, peace, and wellbeing of the land and disrupt too much. It is not right to ignore the local law.
