Stop Fountain Wind Project

This project is an enormous waste of money as any common person can see. In the lifetime span of a wind turbine, it can never produce nearly enough electricity to pay off the cost of making it. If that wouldn't be enough of a reason in itself to abandon this project, there are many others of which I am quite sure you are aware of. The people have spoken loud and clear and it's TIME you listen to them!!! STOP!!! this project if you have any common sense.
