Respect Shasta County

Dear CEC,

I respectfully request that you end the Fountain Wind Project. There are too many serious side effects such as impacting wildlife, such as harm to bald eagles and other birds making a comeback. Then there's the very real safety concern that the wind turbines will increase difficulty fighting wildfires. We cannot stomach more fire destruction to our forests and towns. The project unfairly affects the local tribes and their resources and is against local ordinances. Please respect the people of Shasta County. We do not want the Fountain Wind Project.

We hope that you will make the morally superior decision to end this project now.

Thank you,

Kim Pattison (a Shasta County resident since 1978)
