March 4, 1997

Mr. Hugh Murphy City of Hayward Fire Department Hazardous Materials Office 25151 Clawiter Road Hayward, CA 94545

Dear Mr. Murphy:

Please find enclosed Closure Plan for the Trace Analysis Laboratory facility at 3423 Investment Blvd., Suite 8, Hayward, CA 94545. This facility was operated by Entech Analytical Labs, Inc. d.b.a. Trace Analysis Laboratory from April, 1996 (after purchase of the assets of Trace Analysis Laboratory, Inc.) through the closure period.

As part of the closure process Entech has contracted with the following companies to assist us:

- South Bay Chemical/Hollister, CA-classify and properly dispose of all chemicals and hazardous materials at the facility. Many of the chemicals have already been disposed by South Bay and Philip Environmental, a hazardous waste transporter as part of our shutdown of daily operations at this facility. Copies of all hazardous waste manifests will be provided with the final closure report.
- 2. Radian D-Tech/Sunnyvale, CA-decontamination of surfaces potentially contaminated with hazardous materials.

Upon completion of your review process we will proceed with the final decontamination and any other activities required by the City of Hayward Fire Department. At that time a final report will be filed for your review.

Please advise me if there are additional items that need to be addressed to complete the closure process for this facility in accordance with the City of Hayward requirements. I can be reached at (408) 735-1550 X30.

Sincerely,

Entech Analytical Labs, Inc.

# Lazardous Materials Worksh...t

An attachment to the application for a Unified Hazardous Materials / Hazardous Waste Management Regulatory Program for (Name and Street Address of Facility) Biotium, Inc. 343-3 Investment Blid. Ste. 8 Hayward, CA 94535

Use the "Hazardous Materials Hazard Categories" pamphlet and tally in the following table the total quantities of materials stored at your facility by hazard class. Summarize your inventory and report totals in the application form. Specify unit of measure under "quantity". Use *gallons, pounds,* or *cu. ft.* 

| Hazard Category                                                            | Quantity   |
|----------------------------------------------------------------------------|------------|
| A.1 Explosives and Blasting Agents                                         |            |
| A.2(a) Compressed Gases – Flammable                                        |            |
| A.2(b) Compressed Gases - Oxidizing                                        |            |
| A.2(c) Compressed Gases - Corrosive                                        | 0.5 lb     |
| A.2(d) Compressed Gases – Highly Toxic                                     |            |
| A.2(e) Compressed Gases - Toxic                                            |            |
| A.2(f) Compressed Gases - Inert                                            | 200 Cuft   |
| A.2(g) Compressed Gases - Pyrophoric                                       |            |
| A.2(e) Compressed Gases - Unstable                                         |            |
| A.3(a) Flammable Liquids Class I-A                                         | 4 gal      |
| A.3(a) Flammable Liquids Class I-B                                         | 24 gal     |
| A.3(a) Flammable Liquids Class I-C                                         |            |
| A.3(b) Combustible Liquids Class II                                        | 4 gal      |
| A.3(b) Combustible Liquids Class III-A                                     |            |
| A.3(b) Combustible Liquids Class III-B                                     |            |
| A.4(a) Flammable Solids – Organic Solids                                   | <1.16      |
| A.4(b) Flammable Solids – Inorganic Solids                                 | <116       |
| A.4(c) Flammable Solids – Combustible<br>Metals (except dusts and powders) | < 0.116    |
| A.4(d) Flammable Solids – Combustible                                      |            |
| Dusts and Powders (incl. metals)<br>A.5(a) Oxidizers – Gases               | See A.2(b) |
|                                                                            | 366 A.2(0) |
| A.5(b/c) Oxidizers – Liquids/Solids Class 4                                |            |
| A.5(b/c) Oxidizers – Liquids/Solids Class 3                                |            |
| A.5(b/c) Oxidizers – Liquids/Solids Class 2                                | 1 gal      |
| A.5(b/c) Oxidizers – Liquids/Solids Class 1                                | < 50 lbs   |
| A.6 Organic Peroxides – Unclassified                                       |            |
| A.6 Organic Peroxides – Class I                                            |            |
| A.6 Organic Peroxides – Class II                                           |            |
| A.6 Organic Peroxides – Class III                                          |            |
| A.6 Organic Peroxides – Class IV                                           | < 11b      |
| A.6 Organic Peroxides – Class V                                            |            |
| A.7(a) Pyrophoric Materials – Gases                                        | See A.2(g) |
| A.7(b) Pyrophoric Materials – Liquids                                      | 0.25 gal   |
| A.7(c) Pyrophoric Materials – Solids                                       |            |

| Hazard Category                             | Quantity   |
|---------------------------------------------|------------|
| A.8 Unstable (Reactive) Materials – Class 4 |            |
| A.8 Unstable (Reactive) Materials – Class 3 |            |
| A.8 Unstable (Reactive) Materials – Class 2 | 5 lbs      |
| A.8 Unstable (Reactive) Materials – Class 1 | 4 gal      |
| A.9 Water-Reactive Materials – Class 3      | < 0.5 gal  |
| A.9 Water-Reactive Materials – Class 2      | <1 gal     |
| A.9 Water-Reactive Materials – Class 1      | 5 1bs      |
| A.10(a) Cryogenic Fluids – Flammable        |            |
| A.10(b) Cryogenic Fluids – Oxidizing        |            |
| A.10(c) Cryogenic Fluids – Corrosive        |            |
| A.10(d) Cryogenic Fluids – Inert            |            |
| A.10(e) Cryogenic Fluids – Highly Toxic     |            |
| B.1(a) Highly Toxic Materials               |            |
| B.1(b) Toxic Materials – Gases              | See A.2(e) |
| B.1(b) Toxic Materials – Liquids            | 1 gal      |
| B.1(b) Toxic Materials – Solids             | 50 lbs     |
| B.2 Radioactive Materials                   |            |
| B.3 Corrosives                              | 50 ibs     |
| B.4(a) Carcinogens or Suspect Carcinogens   | 4 gal      |
| B.4(b) Target Organ Toxins                  |            |
| B.4(c) Irritants                            |            |
| B.4(d) Sensitizers                          |            |
| B.5 CalARP or RMP Chemicals                 |            |

# SUMMARYFotal number of hazard classes21Fotal gallons of liquids44Fotal pounds of solids164Fotal cu. ft. at STP of gases200

| In accordance with the provisions of Article 8, Chapter 3 of the Hayward Municipal Code, the facility named above is hereby granted a permit to store hazardous materials as indicated in the permit application previously submitted, and as detailed in the facility's current Hazardous Materials Management Plan, subject to the following terms and conditions:<br>1. The storage and handling of any hazardous material shall conform with all provisions of the Hazardous Materials Storage Ordinance or any other Local, Federal, or State law, statute, code, rule, or regulation relating to hazardous materials and shall not cause an unauthorized release of hazardous materials or pose a significant risk of such unauthorized release; |
| 2. Permittee shall file with the Hazardous Materials Office, for approval, a written Hazardous Materials Management<br>Plan;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3. Permittee shall notify the Hazardous Materials Office of substantial changes in the quantity or nature of the hazardous materials stored in the facility, of substantial modification or repair of the storage facility, of other substantial changes in the facility's Hazardous Materials Management Plan, or of substantial changes in the operations and ownership of the facility which may require a new permit or other additional permits or licenses;                                                                                                                                                                                                                                                                                      |
| 4. Permittee shall take all necessary steps to ensure discovery, containment, and cleanup of any confirmed or unconfirmed unauthorized release of any hazardous material and shall notify the Hazardous Materials Office of such unauthorized release;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

5. Permittee shall authorize representatives of the City to enter the permitted facility for inspection purposes to ascertain compliance and cause correction of any violation of hazardous materials storage permit condition, code, law, statute, rule, or regulation;

6. The Permit may be transferred to new owners of the same facility under terms and conditions imposed by, and subject to the approval of the City;

7. This Permit may be subjected to remedial action under Sec. 3-8.54 of the Hayward Municipal Code arising from the acts or omissions of the permittee;

8. Thirty (30) days prior to the expiration date indicated on this Permit, a new permit application must be submitted pursuant to Sec. 3-8.43 of the Hayward Municipal code;

9. This Permit shall not become effective until it has been signed and accepted by the permittee or by a person having the legal authority to sign for the permittee;

10. This Permit shall be kept on the premises of the permitted facility and shall be made available for inspection; and

11. This Permit does not take the place of any license required by law.

In accordance with the provisions of Article 8, Chapter 3 of the Hayward Municipal Code, the facility named above is hereby granted a permit to store hazardous materials as indicated in the permit application previously submitted, and as detailed in the facility's current Hazardous Materials Management Plan, subject to the following terms and conditions:

1. The storage and handling of any hazardous material shall conform with all provisions of the Hazardous Materials Storage Ordinance or any other Local, Federal, or State law, statute, code, rule, or regulation relating to hazardous materials and shall not cause an unauthorized release of hazardous materials or pose a significant risk of such unauthorized release;

2. Permittee shall file with the Hazardous Materials Office, for approval, a written Hazardous Materials Management Plan;

3. Permittee shall notify the Hazardous Materials Office of substantial changes in the quantity or nature of the hazardous materials stored in the facility, of substantial modification or repair of the storage facility, of other substantial changes in the facility's Hazardous Materials Management Plan, or of substantial changes in the operations and ownership of the facility which may require a new permit or other additional permits or licenses;

4. Permittee shall take all necessary steps to ensure discovery, containment, and cleanup of any confirmed or unconfirmed unauthorized release of any hazardous material and shall notify the Hazardous Materials Office of such unauthorized release;

5. Permittee shall authorize representatives of the City to enter the permitted facility for inspection purposes to ascertain compliance and cause correction of any violation of hazardous materials storage permit condition, code, law, statute, rule, or regulation;

6. The Permit may be transferred to new owners of the same facility under terms and conditions imposed by, and subject to the approval of the City;

7. This Permit may be subjected to remedial action under Sec. 3-8.54 of the Hayward Municipal Code arising from the acts or omissions of the permittee;

8. Thirty (30) days prior to the expiration date indicated on this Permit, a new permit application must be submitted pursuant to Sec. 3-8.43 of the Hayward Municipal code;

9. This Permit shall not become effective until it has been signed and accepted by the permittee or by a person having the legal authority to sign for the permittee;

10. This Permit shall be kept on the premises of the permitted facility and shall be made available for inspection; and

11. This Permit does not take the place of any license required by law.

We recently moved out from 3423 Investment Blvd., Suite 11. I have filed the closure forms with Danny Galang. The landlord needs a release form before the lease can be terminated. Would you please schedule a visit to this address at your earliest convenience? I'd greatly appreciate your getting back to me.

Thanks and have a wonderful day!

Best regards,

Frank Frank Huang, Ph.D. BioAssay Systems 3191 Corporate Place Hayward, CA 94545 Tel: 510-782-9988 x 301 Toll Free: 877-782-3888 Fax: 510-782-1588 Website: www.bioassaysys.com

UPCF Rev. Hayward 2010

## CLAIM OF EXEMPTION For Reporting Year 2010

FIRE PREVENTION OFFICE

FEB 0 3 2010

HAYWARD FIRE DEPARTMENT

HAZARDOUS MATERIALS BUSINESS PLAN / HAZARDOUS MATERIALS INVENTORY

You may be exempted from the filing of a Hazardous Materials Business Plan (HMBP) by completing, signing, and submitting this Claim of Exemption... ONLY IF ALL OF THE FOLLOWING APPLY:

- (1) You have no hazardous materials or you do not generate hazardous waste at this facility; OR not one type of hazardous material or hazardous waste found in your facility exceeds 55 gallons (if liquid), 500 pounds (if solid), or 200 cubic feet at standard temperature and pressure (if gaseous); OR you meet any one of the following exemption conditions:
  - A. If you are a physician, dentist, podiatrist, veterinarian and or pharmacist and you store up to 1,000 cu. ft. of medical gases like oxygen, nitrogen, or nitrous oxide you are exempt from filing an HMBP. (You may have 1,000 cu. ft. of each and still claim the exemption). IF YOU ARE A NEW BUSINESS, YOU MUST STILL NOTIFY THE HAYWARD FIRE DEPARTMENT AND COMPLETE THE FORMS, ONE TIME ONLY.
  - B. Up to 275 gallons of lubricating oils and related materials (e.g. hydraulic fluids, crankcase oils, grease, or transmission fluid) is EXEMPT, IF you do not have more than 55 gallons of any one type of product. WASTE OIL IS NOT EXEMPT AND MUST BE REPORTED AT OR ABOVE 55 GALLONS, EVEN IF YOU QUALIFY FOR THE LUBRICATING OIL EXEMPTION. Submit an HMBP if you have over 55 gallons of waste oil or over 55 gallons of one type of lubricating oil.
  - C. Hazardous materials contained solely in a **consumer product** for direct distribution to, and for use by the general public is EXEMPT. WAREHOUSE QUANTITIES ARE NOT EXEMPT.
- (2) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.); AND
- (3) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this form.

#### I CERTIFY UNDER PENALTY OF LAW THAT :

I have personally investigated and I am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

Subject: <u>Facility Transfer</u>

Dear Dr. Huang:

Enclosed is the approved completed facility transfer form you submitted for your company which moved its operations from 3423 Investment Blvd., #11 in Hayward to 3191 Corporate Place, also in Hayward. This transfers to the new address the Unified Program Consolidated Permit and Registration originally issued to BioAssay at the old address. The permit expires on August 31, 2011.

You noted in your letter-report on the closure of the facility at 3423 Investment Blvd., #11 that all chemicals and solvents, including waste, were transported to the new facility for continued use and reuse. Walls and floors at the old facility were vacuum-cleaned and wiped with wet cloth.

Although the premises you occupied may have been properly cleaned, we cannot issue you a "no-further-action-required" letter for the cleanup because we did not inspect the premises after the cleanup, no wipe samples were collected from the floors or the walls for analyses, and no professional opinion was rendered by a Registered Industrial Hygienist on its habitability.

If you have any questions, contact us by email at <u>danny.galang@hayward-ca.gov</u> or by telephone at (510) 583-4925.

Sincerely,

Danilo Galang Environmental Specialist, AA-III

Hazardous Materials Office Hayward Fire Department 777 B Street Hayward, CA 94541-5007

January 20, 2011

Dear Mr. Danny Galang,

Thank you very much for your letter of January 20, 2011. Please find the two completed forms in the attachments.

This letter relates to the closure of our facility at 3423 Investment Boulevard, Suite 11. For removal and transport, all chemicals and organic solvents in their original bottles were carefully wrapped with foam wraps, placed in sturdy boxes and transported to the new facility on a truck. The new facility is a couple of blocks down the street. All chemicals and organic solvents are all to be used.

Liquid waste containing any chemicals and solvent were handled the same way as with the chemicals and solvents. The waste which was very little is to be reused. Facility walls and floors are vacuumed and cleaned with wet cloth.

Please feel free to contact me should you have any questions. We look forward to working with you.

Best regards,

Sincerely Yours,

Ry My

Shugui F. Huang, Ph.D. Business Owner

July 27, 2010

SHUGUI HUANG, PRESIDENT BIOASSAY SYSTEMS LLC 3423 INVESTMENT BLVD #11 HAYWARD, CA 94545

**RE: 3423 INVESTMENT BLVD** 

Dear BIOASSAY SYSTEMS LLC:

Your Consolidated Permit for the Unified Hazardous Materials and Hazardous Waste Management Program (Unified Program or CUPA Program) expires on August 31, 2010 and must be renewed unless you are no longer required to maintain it.

You are presently regulated under the following elements of the CUPA Program:

1. Hazardous Materials Storage Permit. You are being billed at the range indicated on your permit form. This is based on the total quantity and variety of hazardous materials found at your facility. Refer to the enclosed Schedule of Fees for the annual fee at each range.

If there have been NO CHANGES in your operations, including your inventory of regulated materials, renew your permit by doing the following:

- (1) sign the enclosed "Unified Program Consolidated Permit and Registration;"
- (2) issue a check payable to "Hayward Fire Department" or "City of Hayward" for the amount stated in the invoice; and
- (3) mail the signed permit, the check, the invoice stub and the completed "Business Activities" form in the pre-addressed blue envelope provided. Affix correct postage.

If there have been CHANGES in your operations, including changes in your inventory of regulated materials, renew your permit by doing the following:

- (1) write changes directly and neatly on the enclosed "Unified Program Consolated Permit and Registration" such as Executive Contact, Mailing Address, Hazardous Materials Storage Range, Hazardous Waste Generator Level, number of underground storage tanks, etc.
- (2) write changes directly and neatly on the enclosed invoice such as Executive Contact, Mailing Address, Hazardous Materials Storage Range, Hazardous Waste Generator Level, number of underground storage tanks, and the corresponding changes in the amounts billed (if any) and calculate the adjusted amount due.
- (3) write a check payable to "Hayward Fire Department" or "City of Hayward" for the adjusted amount due; and
- (4) mail the signed permit with the changes, the check, the entire invoice with the changes and the completed "Business Activities" form in the pre-addressed blue envelope provided. Affix correct postage.

January 26, 2010

SHUGUI HUANG, PRESIDENT BIOASSAY SYSTEMS LLC 3423 INVESTMENT BLVD #11 HAYWARD, CA 94545

#### Subject: HMBP for 810901 at 3423 INVESTMENT BLVD #11

Dear SHUGUI HUANG, PRESIDENT:

You got this letter because our records show that although you have a Unified Program Consolidated Permit from the Fire Department, you have been **exempted** from submitting a Hazardous Materials Business Plan (HMBP).

We would like to verify that you still meet the HMBP exemption requirements. Please review the enclosed information sheet titled "Are you exempted from filing an HMBP?" If your inventory of hazardous materials still falls below HMBP levels, please complete and submit a Claim of Exemption.

If your inventory exceeds or is at HMBP levels, you are required to file an HMBP with us.

The HMBP forms are available online. Go to <u>www.hayward-ca.gov</u> and search the website for "HMBP" and then click on the hyperlink to "The Hayward HMBP Package". We can also email you the forms in MSWord document format, which you can complete using your computer. You will still need to print and sign your completed HMBP for submittal to us. To request for the HMBP forms you need, send an email to <u>danny.galang@hayward-ca.gov</u>.

The Fire Department should receive your completed "Claim for Exemption" (or new HMBP) on or before March 1, 2010.

Failure to file an HMBP when required is a violation of state law and may result in fines of up to \$2,000 for each day of violation. After being notified to submit an HMBP, a knowing violation creates liability of up to \$5,000 for each day of the violation.

As a reminder, if your business is located on leased or rented property, you are required to notify the property owner that your business is subject to the HMBP requirements and that you have prepared an HMBP. You must also provide the property owner a copy of your HMBP, if requested to do so, within five working days of such request.

July 22, 2009

SHUGUI HUANG, PRESIDENT BIOASSAY SYSTEMS LLC 3423 INVESTMENT BLVD #11 HAYWARD, CA 94545

#### RE: 3423 INVESTMENT BLVD

#### Dear BIOASSAY SYSTEMS LLC:

The Hayward Fire Department has extended the expiration date of your existing Consolidated Permit for the Unified Hazardous Materials and Hazardous Waste Management Program (Unified Program) from June 30, 2009 to August 31, 2009. Unless you are no longer required to maintain it, please renew your Unified Program Consolidated Permit by the new expiration date, August 31, 2009.

The City of Hayward has conducted a comprehensive study of the fees it charges for services it provides to businesses and individuals, including those that the Fire Department charges for its services as a Certified Unified Program Agency (CUPA). In July, the City Council adopted a new Master Fee Schedule which includes the CUPA Fees summarized in the attached "Schedule of Fees: September 1, 2009."

You are presently regulated under the following elements of the CUPA Program:

1. Hazardous Materials Storage Permit. You are being billed at the range indicated on your permit form. This is based on the total quantity and variety of hazardous materials found at your facility. Refer to the enclosed Schedule of Fees for the annual fee at each range.

2. State Surcharges. All state surcharges are remitted to the state upon collection. As a CUPA, we collect a state surcharge of \$24.00 from each facility that is regulated under any of the Unified Program elements. In addition, those facilities under the UST Program are assessed a state surcharge of \$15.00 per UST and CalARP facilities are assessed a state surcharge of \$270.00.

CERS Surcharge. The California legislature has provided for a temporary additional surcharge of \$25.00 per CUPA facility per year, for three years, to fund the California Electronic Reporting System (CERS). When established, CERS will be available to all regulated businesses and all regulated local government agencies to file required Unified Program information using the Internet. Please refer to the enclosed information sheet on electronic reporting and CERS.

If there have been NO CHANGES in your operations, including your inventory of regulated materials, renew your permit by doing the following:

- (1) sign the enclosed "Unified Program Consolidated Permit and Registration;"
- (2) issue a check payable to "Hayward Fire Department" or "City of Hayward" for the amount stated in the invoice; and
- (3) mail the signed permit, the check, and the invoice stub in the pre-addressed blue envelope provided. Affix correct postage.

#### CHUANYUN ZHAO, PRESIDENT BIOASSAY SYSTEMS LLC 34362 EUCALYPTUS TERRACE FREMONT, CA 94555

#### RE: 3423 INVESTMENT BLVD

#### Dear BIOASSAY SYSTEMS LLC:

Your Consolidated Permit for the Unified Hazardous Materials and Hazardous Waste Management Program (Unified Program) expired on June 30, 2008 and should be promptly renewed, unless you are no longer required to maintain one. As your Certified Unified Program Agency (CUPA), we understand that this year's renewal notice is coming to you late - after the expiration date of your FY 2007-08 permit. We apologize for the delay.

Earlier this year, the City of Hayward started a comprehensive study of all services it provides to businesses and individuals and the fees it charges for these services. The services provided and the fees charged by the Fire Department for the CUPA Program are included in this study. We expected that the study would be completed and a new Master Fee Schedule for the City would be adopted in time for the customary 30-day renewal notice you receive before your permit expires. As of today, however, the study is still ongoing.

Therefore, this renewal notice and the enclosed invoice are still based on the enclosed Schedule of Fees, the same fees that your CUPA has charged since July 2004.

You are presently regulated under the following elements of the CUPA Program:

1. Hazardous Materials Storage Permit. You are being billed at the range indicated on your permit form. This is based on the total quantity and variety of hazardous materials found at your facility. Refer to the enclosed Schedule of Fees for the annual fee at each range.

2. State Surcharge. The Hayward Fire Department, as a Certified Unified Program Agency, collects state surcharges for specific elements of the Unified Program, as determined by specific state agencies. Refer to the Schedule of Fees for further information on state surcharges.

If there have been NO CHANGES in your operations, including your inventory of regulated materials, renew your permit by doing the following:

- (1) sign the enclosed "Unified Program Consolidated Permit and Registration;"
- (2) issue a check payable to "Hayward Fire Department" for the amount stated in the invoice; and
- (3) mail the signed permit, the check, and the invoice stub in the pre-addressed blue envelope provided. Affix correct postage.

June 1, 2007

CHUANYUN ZHAO, PRESIDENT BIOASSAY SYSTEMS LLC 34362 EUCALYPTUS TERRACE FREMONT, CA 94555

#### **RE: 3423 INVESTMENT BLVD**

Dear BIOASSAY SYSTEMS LLC:

Your current Unified Program Consolidated Permit and Registration expires on June 30, 2007 and has to be renewed promptly unless you are no longer required to maintain one.

If there have been no changes in your operations, you do not have to complete a new "Business Activities Form". You may renew your permit by signing only the enclosed "Unified Program Consolidated Permit and Registration" form and mailing it back to us for review and approval. Include a check payable to "The City of Hayward Fire Department" for the amount due stated on the invoice, along with the tear-off stub of the invoice. You will receive your new Permit and Registration by return mail.

If there have been changes in your operations that affected your inventory of hazardous materials, or your generation, use, handling, or onsite treatment of hazardous waste, please file a new "Business Activities Form." Refer to the enclosed Schedule of Fees and make adjustments to the invoice. Return the completed application form, the signed permit/registration, a copy of the entire invoice with your notations, and a check for the adjusted amount payable to "The City of Hayward Fire Department". We will review the completed forms and the adjusted invoice. You will receive your new Permit and Registration and Notices for any additional or excess fees due by return mail.

Our records show that you are presently regulated under the following elements of the Unified Program:

1. Hazardous Materials Storage Permit. You are being billed at the range indicated on your permit form. This is based on the total quantity and variety of hazardous materials found at your facility. Refer to the enclosed Schedule of Fees for the annual fee at each range.

2. State Surcharge. The Hayward Fire Department, as a Certified Unified Program Agency, collects state surcharges for specific elements of the Unified Program, as determined by specific state agencies. Refer to the Schedule of Fees for further information on state surcharges.
