# ELECTROCOAT

May 22, 1986

City of Hayward 22300 Foothill Blvd Hayward, CA 94541

To Whom it May concern:

Electrocoat proposes to occupy approximately 8,000 sq. ft. of space for the following uses:

General Office Area - approximately 1,000 sq. ft. of space would be utilized for general office duties and functions.

Upholstery Shop - approximately 1,500 sq. ft. of space will be allocated for the upholstery shop. The type of service performed would relate to the disassembly and replacement of fabric and foam cushioning to reupholster office equipment such as chairs and accoustic panel partitions. Principal materials used would be fabric, vinyl, and foam cushioning.

Wood Shop - approximately 2,500 sq. ft. of space will be allocated for the wood shop. The principal activities in this area will relate to the manufacturing of replacement desk tops and laminated office furniture. Products used in this area would consist primarily of industrial grade flakeboard, high pressure plastic laminate, contact adhesive, and miscellaneous related wood products.

Paint Area - approximately 3,500 sq. ft. of space will be allocated for the paint shop. The principal activities in this area will relate to the preparation and repainting of metal office equipment with the Randsburg #2 handgun process. Products used in this area would be epoxy paint, and thinner for flushing paint lines. This area would also be used for warehousing the enamel and urethane paints.

#### **Office Refurbishment**

I have enclosed our specification sheets for painting and inlay top replacement. These should give you a better understanding of how we actually perform these services. To observe the process in operation, please contact Tim Hood at our Hayward Office. The number is (415) 887-1451.

UPCF Rev. Hayward 2010

### CLAIM OF EXEMPTION For Reporting Year 2010

MAR (1 4 2010

# HAZARDOUS MATERIALS BUSINESS PLAN / HAZARDOUS MATERIALS INVENTORY DE DEPARTMENT

You may be exempted from the filing of a Hazardous Materials Business Plan (HMBP) by completing, signing, and submitting this Claim of Exemption... ONLY IF ALL OF THE FOLLOWING APPLY:

- (1) You have no hazardous materials or you do not generate hazardous waste at this facility; OR not one type of hazardous material or hazardous waste found in your facility exceeds 55 gallons (if liquid), 500 pounds (if solid), or 200 cubic feet at standard temperature and pressure (if gaseous); OR you meet any one of the following exemption conditions:
  - A. If you are a physician, dentist, podiatrist, veterinarian and or pharmacist and you store up to 1,000 cu. ft. of medical gases like oxygen, nitrogen, or nitrous oxide you are exempt from filing an HMBP. (You may have 1,000 cu. ft. of each and still claim the exemption). IF YOU ARE A NEW BUSINESS, YOU MUST STILL NOTIFY THE HAYWARD FIRE DEPARTMENT AND COMPLETE THE FORMS, ONE TIME ONLY.
  - B. Up to 275 gallons of lubricating oils and related materials (e.g. hydraulic fluids, crankcase oils, grease, or transmission fluid) is EXEMPT, IF you do not have more than 55 gallons of any one type of product. WASTE OIL IS NOT EXEMPT AND MUST BE REPORTED AT OR ABOVE 55 GALLONS, EVEN IF YOU QUALIFY FOR THE LUBRICATING OIL EXEMPTION. Submit an HMBP if you have over 55 gallons of waste oil or over 55 gallons of one type of lubricating oil.
  - C. Hazardous materials contained solely in a consumer product for direct distribution to, and for use by the general public is EXEMPT. WAREHOUSE QUANTITIES ARE NOT EXEMPT.
- (2) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.); AND
- (3) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this form.

#### I CERTIFY UNDER PENALTY OF LAW THAT :

I have personally investigated and I am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

## CLAIM OF EXEMPTION For Reporting Year 2009

FIRE PREVENTION OFFICE

FEB 2 5 2009 POSTE

# HAZARDOUS MATERIALS BUSINESS PLAN / HAZARDOUS MATERIALS INVENTORY

You may be exempted from the filing of a Hazardous Materials Business Plan (HMBP) by completing, signing, and submitting this Claim of Exemption... ONLY IF ALL OF THE FOLLOWING APPLY:

- (1) You have no hazardous materials or you do not generate hazardous waste at this facility; OR not one type of hazardous material or hazardous waste found in your facility exceeds 55 gallons (if liquid), 500 pounds (if solid), or 200 cubic feet at standard temperature and pressure (if gaseous); OR you meet any one of the following exemption conditions:
  - A. If you are a physician, dentist, podiatrist, veterinarian and or pharmacist and you store up to 1,000 cu. ft. of medical gases like oxygen, nitrogen, or nitrous oxide you are exempt from filing an HMBP. (You may have 1,000 cu. ft. of each and still claim the exemption). IF YOU ARE A NEW BUSINESS, YOU MUST STILL NOTIFY THE HAYWARD FIRE DEPARTMENT AND COMPLETE THE FORMS, ONE TIME ONLY.
  - B. Up to 275 gallons of lubricating oils and related materials (e.g. hydraulic fluids, crankcase oils, grease, or transmission fluid) is EXEMPT, IF you do not have more than 55 gallons of any one type of product. WASTE OIL IS NOT EXEMPT AND MUST BE REPORTED AT OR ABOVE 55 GALLONS, EVEN IF YOU QUALIFY FOR THE LUBRICATING OIL EXEMPTION. Submit an HMBP if you have over 55 gallons of waste oil or over 55 gallons of one type of lubricating oil.
  - C. Hazardous materials contained solely in a consumer product for direct distribution to, and for use by the general public is EXEMPT. WAREHOUSE QUANTITIES ARE NOT EXEMPT.
- (2) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.); AND
- (3) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this form.

#### I CERTIFY UNDER PENALTY OF LAW THAT:

I have personally investigated and I am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

- (2) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this Claim of Exemption; AND
- (3) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.)

#### I CERTIFY UNDER PENALTY OF LAW THAT :

I have personally investigated and am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

4. <u>Recordkeeping</u> (please submit an example of the inspection checklist used for observing/testing the hazardous material storage areas). Also submit copies of unauthorized release reports. The checklist must include the following:

| <u></u>          |            |              | Date & type of |           | Safety    |
|------------------|------------|--------------|----------------|-----------|-----------|
|                  | Date of    |              | Corrective     | Inspector | Manager   |
| Storage Facility | Inspection | Observations | Actions taken  | Signature | Signature |

- 5. <u>Emergency Response Plan</u>. AB2185 which passed 9-28-85 requires businesses to prepare "business plans" to respond to hazardous material release emergencies. The plan must include:
  - 1. Notification of local emergency rescue personnel (i.e. fire, police)
  - 2. In-house procedures that your employees would follow if there were a safety emergency of any kind (i.e. fire, spills, earthquake).
  - 3. Evacuation plans including procedures to immediately notify the business site and affected public if there is a release of hazardous materials.
  - 4. Training for all new employees and annual training for all employees in safety procedures, and familiarity with the emergency response plan.
  - 5. A list of all emergency equipment (e.g. absorbents, fire extinguishers, first aid, eye wash stations, breathing apparatus, etc.)

6. Waste Disposal Procedures

| Waste Type    | Amount generated<br>per month | Method of<br>Disposal | Disposal<br>Schedule         |
|---------------|-------------------------------|-----------------------|------------------------------|
| TRICHCOROMETH | IANE 1 QUART                  |                       |                              |
| LUBE OIL      | lquart                        |                       |                              |
|               |                               |                       |                              |
| 7 Useswdowe M | storials Handling (D          |                       | ezardous materials are handl |

7. <u>Hazardous Materials Handling</u> (Please describe how hazardous materials are handled to prevent accidental release).

All flammable and hazardous materials are kept in closed containers are

stored at room temperature out of direct sunlight. Handling done in

accordance to manufacter recommendation on material safety data sheets.

The preceding information is true and correct. If there is any change which would materially affect any answer above, I will inform the City and apply for an appropriate amendment to this permit.

I declare under penalty of perjury that the foregoing information is true and correct.

#### TO: RAFAT SHAHID CHIEF, HAZMAT DIV.

FROM: EDGAR HOWELL, SR. HAZMAT SPEC.

SUBJECT: 3475 INVESTMENT BLVD. HAYWARD, REQUEST FROM MR. SANTANA SUPERVISOR, ALAMEDA COUNTY TO CHECK THIS SITE FOR HEALTH HAZARDS

4/14/87

1300 CONTACTED BY MR. SANTANA BOFS AT THE GARAGE TO GO WITH HIM TO 3475 INVESTMENT BLVD. HAYWARD AND CHECK OUT A SITE WHERE THE TENANTS UPSTAIRS HAD HAD SOME MEDICAL PROBLEMS.

1530 MET MR. SANTANA AT THE SITE AND FOUND THAT MR. KING THE TENANT HAD BEEN TAKEN TO THE EMERGENCY ROOM AT EDEN HOSPITAL THIS AFTERNOON. HE IS NOW RELEASED. MR. AL MARTINEZ (489-4650) MET MR. SANTANA AND MYSELF AT THE SITE. HE STATED THAT MR. KING AND MRS. KING WOULD BE AT THE SITE SOON AS THEY LEFT THE HOSPITAL

CONTACTED MR. CARL SEIGERT, MAINTENACE MAN FOR R AND B COMMERCE PARK. THE LANDLORDS FOR THE KING CO. OFFICE AT 3475 INVESTMENT BLVD. HAYWARD. MR. SEIGERT OPENED THE DOOR FOR US TO INSPECT THE SITE. IT IS A SECOND STORY THREE (3) ROOM SUITE. A MAIN ENTRY ROOM, A SECOND ROOM OFF TO THE LEFT OF THE ENTRY DOOR WITH AIR-CONTROL CURTAINS USED AS A COMPUTER ROOM AND AN OFFICE TO THE REAR OF THIS COMPUTER ROOM. THIS OFFICE IS APPROXIMATELY THE SAME SIZE AS THE COMPUTER ROOM. THE OFFICE WAS ENTERED BY MR. SANTANA MR. MARTINEZ, MR. SEIGERT AND MYSELF. MRS. KING CAME INTO THE ROOM WHEN THEY ARRIVED AT APPROXIMATELY 1630 HRS. THE ROOMS WHEN WE ENTERED WERE EMPTY OF FURNITURE AND THE AIR CONDITIONING SEEMS TO HAVE BEEN OFF FOR SOME TIME AS THE ROOMS SMELLED "MUSTY" TO THOSE OF US IN THE ROOM.

MR. KING AND MRS KING WERE INTERVIEWED AT THEIR CAR IN THE LOT AT APPROXIMATELY 1700 HRS. MR AND MRS KING STATED THAT THEY HAD BEEN IN THIS OFFICE FOR ABOUT TWO (2) YEARS AND THAT A SEC. WORKING FOR THEM HAD HAD TO OUIT AFTER SIX (6) MONTHS IN THE SITE THE EMPLOYEES FIRST NAME WAS KIM. MR. KING STATED THAT HE HAD TAKEN THEIR OFFICE EQUIPMENT TO A STORAGE SHED ON WHIPPLE ROAD HAYWARD WHEN THEY HAD VACATED THIS SITE. SOME OF THE EQUIPMENT, COMPUTER AND PRINTER HAD BEEN TAKEN TO HIS HOME AT 1712 CALAIS CT., HAYWARD. HE STATED THAT HE HAD STARTED USING THE COMPUTER AND PRINTER THIS DAY AND FOUND THAT AFTER USING THE EQUIP. FOR ABOUT TWO (2) HOURS THAT THE EQUIP. HAD STARTED TO "SMOKE" AND THAT HE HAD TURNED OFF THE EQUIP. AND THAT SOME OF THE "SMOKE" HAD GOTTEN ONTO THEIR COUCH. HE HAD TAKEN THE COUCH AND OTHER FURNITURE AND PLANTS TO THE STORAGE ROOM AND HAD GOTTEN ILL AFTER TOUCHING THE STORED FURNITURE AND BEING IN THE STORAGE ROOM. HE CAME HOME , HAD A SHOWER AND FELT WEAK AS IF TO FAINT.

#### PAGE 2, 3475 INVESTMENT BLVD., HAYWARD

MRS. KING THEN CALLED THE PARAMEDICS TO TAKE HER HUSBAND TO EDEN EMERGENCY ROOM FOR TREATMENT. COPY OF MR. KINGS MEDICAL RECORD IS ATTACHED. SEEN BY DR. OLSON OF EDEN MEDICAL. MRS KING FURTHER STATED THAT THE LANDLORD HAD HAD THE ROOF REPLACED BY COMMERCIAL ROOFING CO. BUT THE WORK HAD STOPPED BECAUSE THE ROOFERS WERE BEING AFFECTED BY WHATEVER THEY WERE BEING AFFECTED BY. THE ROOFERS HAD BEEN ON THE SCENE ABOUT 3 TO 4 WEEKS EARLIER AND THERE HAD BEEN A REACTION ON THE ROOF DURING THE CONSTRUCTION AND SAMPLES HAD BEEN TAKEN BY MR. KING FROM THE VENTS ON THE ROOF AND SENT TO MR. MEL CARTER OF CARTER LABS.

4/15/87

1300 CONTACTED SUSANNE LARSON, HAYWARD FIRE DEPT. HAZMAT SPEC. FOR DUAL INSPECTION OF THE COMPANY LOCATED BELOW THE SUITE FORMERLY OCCUPIED BY KING AND COMPANY. IT WAS ALSO FOUND THAT ALL TENANTS ON THE SECOND FLOOR OF 3475 INVESTMENT BLVD. HAY. HAD VACATED. THE UNITS VACATED WERE:

207 204 WEST STAR FINANCIAL INC. 202 KING AND CO. 201 IS STILL OCCUPIED BY PMS. MAILROOM.

#### 4/16/87

1530 CONTACTED DR. MEL CARTER OF CARTER LABS AND FOUND THAT HE HAD SAMPLED AND ANALYZED MATERIAL FROM 3475 INVESTMENT BLVD. HE STATED THAT HE HAD FOUND HYDRO CARBONS ONLY IN THE SAMPLES HE HAD. HE RAN THE SAMPLES USING EPA STANDARD TEST 601 FOR HALOGENATED HYDROCARBONS AND 625 FOR PHENOICS.

#### 4/17/87

0900 CONTACTED SEIMENS INC. LOCATED ON THE GROUND FLOOR OF 3475 INVESTMENT BLVD. HAYWARD. THE OFFICE WAS CLOSED DUE TO GOOD FRIDAY. CONTACTED DR. OLSON EDEN EMERGENCY ROOM, NEED A RELEASE FROM MR. KING FOR HIS MEDICAL RECORDS. OBTAINED FORM FROM EDEN MED.

#### 4/20/87

RECORDS.

0900 INSPECTED SEIMENS INC. INSPECTION COPY ATTACHED. IN ESSENCE FOUND A ELECTRICAL REPAIR SHOP WITH SOME SOLVENTS AND ADHESIVES IN SMALL QUANTITIES. THEY DO SOME SPRAY PAINTING AND WERE TOLD BY" CAL OSHA TO DO THAT OUTSIDE" THE MATERIAL SAFETY DATA SHEETS WERE OBTAINED FROM THE OFFICE OF ALL MATERIAL WHICH IS HAZARDOUS AND USED IN THE OPERATION. SEE ATTACHED. THE MAJOR PROBLEM THAT I NOTED IS THAT THE VENTS TO THE ROOF WERE JUST OPENINGS IN THE CEILING AND THAT THE VENTS DO NOT EXTEND ABOVE THE ROOF LINE OF THE UPPER STORY WHERE THE OFFICES WERE LOCATED. RECOMMEDATION T( SEIMENS TO HAVE THE AREA VENTED WITH POWER AND EITHER EXTEND THI VENTS ABOVE THE UPPER STORY ROOF OR INSTALL A CARBON FILTER SYSTEM TO KEEP ANY FUMES FROM ESCAPING TO THE ATMOSPHERE. CALOSHA HAD INSPECTED ON 6/23/86 AND HAD NOTED THAT THERE WAS A PAGE 3 3475 INVESTMENT BLVD. HAYWARD.

NEED TO PROVIDE AN AREA FOR SPRAYPAINTING ie A BOOTH, PROVIDE EMERGENCY EYEWASH AND PROVIDE A RESPIRATOR FOR EMPLOYEE USING TCE.

4/21/87

0900 MET MR. KING AND WITH LARRY SETO THIS OFFICE WE WENT TO 1612 WHIPPLE ROAD, HAYWARD. PUBLIC STORAGE UNIT H-59 RENTAL OF KINGS WAS ENTERED WITH USE OF CPE SUIT, RESPIRATOR AND NITRIL GLOVES. THE UNIT WAS FILLED WITH OFFICE EQUIPMENT, PLANTS AND HOME FURNISHINGS. THE ONLY PIECE OF EQUIPMENT THAT A WIPE SAMPLE COULD BE OBTAINED WAS THE SABIN COPIER. IT WAS NEAR THE DOOR AND COULD BE REACHED. A KIMWIPE WAS USED AND DUST WAS OBTAINED FROM THE TOP, FEEDER AREA AND COLATING AREA AS WELL AS UNDER THE DOCUMENT FEEDER. THE DUST SAMPLES WERE THEN PLACED IN A JAR AND LABELED AS 1612 C.

1100 WENT TO MR. KINGS HOME 1712 CALAIS CT., HAYWARD. MR KING OPENED THE GARAGE AND SHOWED US TWO GARBAGE BAG COVERED PIECES OF EQUIPMENT. THEY WERE THE COMPUTER AND PRINTER THAT HE HAD USEL 4/14/87 AND HAD SMOKE COME FROM THEM. WIPE SAMPLES WERE TAKEN FROM THESE TWO PIECES OF EQUIP. MR. KING WITH NO PROTECTION ENTERED THE GARAGE AND THE HOUSE WITH NO FEAR AND SHOWED ME WHERE TO REMOVE THE COVER OF THE COMPUTER TO TAKE A SAMPLE FROM INSIDE THE UNIT. MR. SETO OBSERVED THIS ALSO. SAMPLES TAKEN WERE

1712 P FROM THE PRINTER

1712 C FROM THE COMPUTER INSIDE AND OUTSIDE

1712 Ca FROM THE COMPUTER COVER WHICH EVIDENCED SOME DIS-COLORATION MAYBE SMOKE.

MR. KING WAS ASKED ABOUT HIS REACTION TO THE HOUSE AND EQUIP. NOW AND HE STATED "HE IS NOT BOTHERED AS MUCH NOW." NO SAMPLES WERE TAKEN INSIDE THE HOUSE. DUE TO THE PROBLEM WITH THE PRINTER SMOKING AFTER 10 MIN. USE WE LEFT THE PRINTER ON FOR ABOUT 25 MINUTES WITH NO REACTION. MR. KING FELT THAT THE REACTION WITH THE PRINTER WOULD ONLY OCCUR WITH IT UNDER STRESS WE SUGGESTED THAT HE HAVE DR. CARTER RUN IT UNDER THE HOOD AND SEE IF THE SAME REACTION OCCURED AND A SAMPLE COULD THEN BE TAKE AND ANALYZED. MR. KING AGREED THAT THIS WAS THE BEST WAY.

4/30/87

0900 CHECKED THE MSDS OF THE MATERIALS USED BY SEIMENS AND FOUND THE FOLLOWING.

SUPER SAFE-T-SOL, FORMILA C2H3Cl3, GENERIC NAME SOLVENT/DEGREASER MIXTURE OF 1,1,1 TRICHLOROETHANE WITH A TLV 350 ppm. HAS ANESTHETIC EFFECT WITH SOME EYE IRRITATION.

PRODUCED BY TELECON, SELDEN N.Y. TELE.# 516-928-8900

SILASTIC (R) 732 RTV SEALANT, GENERIC NAME SILICONE HAZARD INGREDIENT ACETOXYSILANE 5% WITH A TLV 10 ppm PEL. HAS THE ABILITY TO CAUSE EYE IRRITATION, SKIN REDDINING AND INHALATION IRRITATION.

PRODUCED BY DOW CORNING, MIDLAND MI. TELE.# 517-496-5900

PAGE 4 3475 INVESTMENT BLVD. HAYWARD.

557 ALUMINUM LUBRICANT, GENERIC MATERIALS SILOXANE IN SOLVENT CONTAINS:

| 111 TRICHLOROETHANE                       | 54% 350 PEL |
|-------------------------------------------|-------------|
| ACETONE                                   | 8% 75 TLV   |
| ISOPROPANOL                               | 3% 400 PEL  |
| PROPANE                                   | 30% 1000ppm |
| CAUSES EYE IRRITATION AND REDDENING O     | F THE SKIN  |
| PRODUCED BY DOW CORNING, MIDLAND MI. 517- | -496-5900   |

4/30/87

1600 CALLED BARNEY CHAN ENVIRONMENTAL HEALTH CHEMIST AND ASKED I HE COULD RUN THE SAMPLES FOR 111 TRICHLOROETHANE AND ACETOXYSILANE, HE STATED THAT HE COULD RUN THE 111 TRI. BUT THE OTHER PROBABLY NOT. HE IS TO CALL MR. CARTER OF CARTER LABS AND GET FURTHER INFO FOR ME. TO TAKE SAMPLES TO BARNEY FRI. 5/1/87.

5/20/87 A copy of this report was sent to G. Jensen, Assn't DA, Consumer fraud unit at his request. Mr. King had called his office.

5/21/87

Received a call from Mr. Fred Powers, assn't general council for SIEMENS Corp. He questioned what we found at their site during our inspection as he had been informed of a spot on channel 36 San Jose station news report last week with Mrs. King stating she had physical problems due to xylene from 3475 Investment and the electronic company housed there. Mel Carter was on the television spot as well identifying the solvent found in the couch with a "sniffer". I informed Mr. Bowers that our records should be supcened if needed as this may be a case involving litigation. Mr. Powers is going to the TV station this afternoon and asked if I had been contacted I responded that I had not been contacted by that station.

#### A. EXPLANATION:

This authorization to receive or release medical information is being requested of you to comply with the terms of Confidentiality of Medical Information Act of 1981, Section 56, et. seq., California Civil Code.

| NNGALMOTES       [XAAY         HX:37/y/o/m who presents with his wife and 2 children with complicated       [XAAY         HX:37/y/o/m who presents with his wife and 2 children with complicated       story of possible unknown chemical emposure over the past year.         PC claims that for the past year their offices in the building       above a. chemical company, and noted subtle unwould smells, associated         with some burning of eyes and threat and variety of symptoms       in cluding depression, lethargy. They claim chac even after         moving out of the building that the computer which had been       in the office had dark smokey material on its insides, and when         unred on it contaminated their living room including their       sofa. Today, pt went to retrieve some items from a storage shed         sofa. Today, pt went to retrieve some items from a storage shed       GGMA -16         where the sofa is kept with other items and while in the back       of this darkened room he suddenly felt extremely tense and "started         freqking out" and "had to get out quickly". Described burning       eyes and nose, throat, once he raced outside he felt his nose         was completely closed, had headacke and felt panicky. After       showering at home, the still felt extremely panickla and felt         that he lost of his strength, fell down on the bathroom floog       THEATMENT/ORDERS:         feele-completely.vell-except for some residual eye hurning.       Apparently, they have had samples of the snokey material from                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | | HX:37/y/o/m who presents with his wife and 2 children with completered         story of possible unknown chemical exposure over the past year.         Pt Gildmä that for the past year cheric offices in the building         above a chemical company, and noted subtle unusual smells, associated         with some burning of eyes and chroat and variety of symptoms         in cluding depression, lethargy. They claim that even after         moving.out.of the building that the computer which had been         in the office had dark smokey material on its insides, and when         turned on If contaminated their living roon including their         sofa. Today, pt went to tetrieve some items from a storage shed         where the sofa id kept with other items and while in the back         of This darkened room he suddenly felt extremely tense and "started         freqking-out".and "Mad to get out quickly". Described burning         eyes and nose, throat, once he raced outside he falt his nose         was completely closed, had headache and felt panicked and felt         that he lost of his strength, fall down on the bathroon floog         witch loc and couldn't move. Paramedics were summond. He no identifiable         substance found. They have attempted to obtained assistance.         frend, blac and County environmental health and apparently         without success. They are considering legal action, against         the landlordPast medical hx: negative. Of note however: pt                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| story of possible unknown chemical exposure over the past year.<br>Pt claims that for the past year their offices in the building<br>above. a chemical company, and noted subtle unusual smells, associated<br>with some burning of eyes and threat and variety of symptoms<br>in cluding depression, lechargy. They claim that even after<br>moving out of the building that the computer which had been<br>in the office had dark smokey material on its insides, and when<br>turned on it contaminated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly falt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicky. After<br>showering et home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the backroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels completely well-except for some residual eye burning<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSIA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note howevers -pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>axious. Pt has mildly injected coulding the right<br>axilla. none on the neck area.<br>CHAMBED POWNED WORMANED CONTER<br>CONDITION: HOME HOSPITAL WORK OTHER<br>CONDITION: HOME HOSPITAL WOR | PE claims that for the past year their offices in the building<br>above a chemical company, and noted subtle unusuel smells, associated<br>with some burning of eyes and throat and variety of symptoms<br>in cluding depression, lechargy. They claim that even after<br>moving out of the building that the computer which had been<br>in the office had dark smokey material on its insides, and when<br>turned on it contaminated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly felt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. Me now<br>feels completely well-except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance.<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: -pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>PE: alert, articulate, no apparent distress although moderately<br>PANNED. | above a chemical company, and noted subtle unusual smells, associated<br>with some burning of eyes and throat and variety of symptoms<br>in cluding depression, lechargy. They claim that even after<br>moving.out of the building that the computer which had been<br>in the office had dark smokey material on its insides, and when<br>urned on it containated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly felt extremely rense and "started<br>freqking out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicky. After<br>showering_at_home, he_still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels completely well-except for some residual eye burning.<br>Apparently, they have had samples of the smokey naterial from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the handlord, Past medical hx: negative. Of note hovever: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>PD = 0<br>BORMONE WORANGED CENTIAL DECEASED<br>DATE INFORMANCE COMMENTS: COMME | <pre>vith some burning of eyes and throat and variety of symptoms in cluding depression, lechargy. They claim that even after moving.out of the building that the computer which had bean in the office had dark smokey material on its insides, and when turned on it containinated their living room including their sofa. Today, pt went to retrieve some items from a storage shad where the sofa is kept with other items and while in the back of this darkened room he suddenly felt extremely tense and "started freqking-out".and."had to get out quickly". Described burning eyes and nose, throat, once he raced outside he felt his nose was completely closed, had headache and felt panicky. After showering-at-home, he still felt extremely panicked and felt that he lost of his strength, fell down on the bathroom floog with LOC and couldn't move. Paramedics were summoned. He now feels-completely. well except for some residual eye burning. Apparently, they have had samples of the smokey material from around the work place analyzed and "is's organic" but no identifiable for an and</pre>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                             | an a                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| in cluding depression, lechargy. They claim that even after<br>moving out of the building that the computer which had been<br>in the office had dark smokey material on its insides, and when<br>turned on it contaminated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of this darkened room he suddenly felt extremely tense and "started<br>freqking out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headcache and felt panicky. After<br>showering at-home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels completely.well except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSIA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the lenddord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla, nome on the neck area.<br>CHARGED MERONEM UNCHANGED CARRIED<br>CONDITION: AMBULANCE CARRIED W/C GURNEY AMBULATORY<br>D D D T TIMEOUT<br>CONDITION:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| moving out of the building that the computer which had been<br>in the office had dark smokey material on its insides, and when<br>turned on it containlated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shad<br>where the sofa is kept with other items and while in the back<br>of this darkened room he suddenly felt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headche and felt panicky. After<br>showering-at-home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels-completely well-except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "iri's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSIA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhaa, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CHARGED MPROVED UNCHARGED CANCAL DECEASED<br>PATCH DUNCHARGED CANCAL                                                                                                                                                                                                                                                                                                                                                                               |
| in the office had dark smokey material on its insides, and when<br>turned on it containated their living room including their<br>sofa. Today, py twent to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of this darkened room he suddenly felt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headche and felt panicky. After<br>showering-et-home, he-still felt extremely penicked and felt<br>that he lost of his strength, fell down on the bathroom flogd<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels completely well-except for some residual eye burning.<br>Apparently, they have had samples of the snokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance-found. They have attempted to obtained assistance.<br>from Cal OSIA and Count environmental health and apparently<br>without success. They are considering legal action, against<br>the landlordPast medical hx: negative. Of note however:.pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxiousPt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a snall dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla, none on the neck area.<br>CHARGED MERGY DUCK SMOED CRITICAL DECEASED<br>DECISION.HOWE MOSPITAL WORK OTHER<br>CONDITION: AMBULANCE CARRIED WCC GURNEY AMBULATORY<br>DATE THEO UNCHANGED CRITICAL DECEASED<br>DATE THEOUT<br>DATE THEOUT<br>DATE THEOUT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | in clud                                                                                                        | ing depr    | ession,                                            | lethargy          | .                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| In the office had dark smokey material on its insides, and when<br>turned on it containinated their living room including their<br>sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly felt extremely tense and "started<br>freqking out". and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicky. After<br>showering at home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels-completely well except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSIA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a snall dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CMARGED MMEROVED UNCHANGED CHITCAL DECEASED<br>DECONDERM MEMORED CHITCAL DECEASED<br>DATE THE ONTRA HOULATORY<br>DATE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| sofa. Today, pt went to retrieve some items from a storage shed<br>where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly felt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicky. After<br>showering at home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels-completely well-except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance-found. They have attempted to obtained assistance<br>from Cal OSIA and Coury environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CHARGED IMPROVED UNCHARGED CHITCAL DECEASED<br>IMPROVED UNCHARGED CHITCAL DECEAS | where the sofa is kept with other items and while in the back<br>of chis darkened room he suddenly felt extremely tense and "started<br>freqking-out" and "had to get out quickly". Described burning<br>eyes and nose, throat, once he raced outside he felt his nose<br>was completely closed, had headache and felt panicky. After<br>showering-et-home, he-still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels-completely well-except for some residual eye burning.<br>Apparently, they have had samples of the snokey material from<br>around the work place analyzed and "ir's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the-landlordPast medical hx: negative. Of note however.pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and paim. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CMARGED UNCHANGED CRITICAL DECEASED<br>DECENTION: MOME MOSPITAL WORK OTHER<br>CONDITION: AMBULANCE CARRIED W/C GURNEY <u>)///</u> +                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| of this darkened room he suddenly felt extremely tense and "started         freqking_out" and "had to get out quickly". Described burning         eyes and nose, throat, once he raced outside he felt his nose         was completely closed, had headache and felt panicky. After         showering_et-home, he still felt extremely panicked and felt         that he lost of his strength, fell down on the bathroom floog         with LOC and couldn't move. Paramedics were summoned. He now         feels-completely well-except for some residual eye burning.         Apparently, they have had samples of the snokey material from         around the work place analyzed and "it's organic" but no identifiable         substance found. They have attempted to obtained assistance         from Cal OSHA and County environmental health and apparently         without success. They are considering legal action, against         the -landlord. Past medical hx: negative. Of note however: pt         is a heavy smoker, 2 packs per day. On no medications.         PE: alert, articulate, no apparent distress although moderately         Nursing comments.         no rhinorrhea, no stridor or coughing, wheezing. There is no         skin rash other than a small dried patch of dermatitis on the         forearm and palm. He also has 1-2 small pimples in his right         axilla, none on the neck area.         CMARGED:       MMENUANDER CARRED         MP                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| freqking out" and "had to get out quickly". Described burning         eyes and nose, throat, once he raced outside he felt his nose         was completely closed, had headache and felt panicky. After         showering_at-home, he_still felt extremely panicked and felt         that he lost of his strength, fell down on the bathroom floog         with LOC and couldn't move. Paramedics were summoned. He now         feels completely well-except for some residual eye burning.         Apparently, they have had samples of the snokey material from         around the work place analyzed and "it's organic" but no identifiable         substance found. They have attempted to obtained assistance         from Cal OSHA and County environmental health and apparently         without success. They are considering legal action, against         the -landlord. Past medical hx: negative. Of note however: -pt         is a heavy smoker, 2 packs per day. On no medications.         PE: alert, articulate, no apparent distress although moderately         anxious. Pt has middly injected conjunctiva, no lacrimation,         nor rhinorrhea, no stridor or coughing, wheezing. There is no         skin rash other than a small dried patch of dermatitis on the         forearm and palm. He also has 1-2 small pimples in his right         axilla, none on the neck area. | eyes and nose, throat, once he raced outside he felt his nose was completely closed, had headache and felt panicky. After showering_at-home, he_still felt extremely panicked and felt that he lost of his strength, fell down on the bathroom floog with LOC and couldn't move. Paramedics were summoned. He now feels-completely well-except for some residual eye burning. Apparently, they have had samples of the snokey material from around the work place analyzed and "it's organic" but no identifiable substance found. They have attempted to obtained assistance from Cal OSHA and County environmental health and apparently without success. They are considering legal action, against the landlord. Past medical hx: negative. Of note however: pt is a heavy smoker, 2 packs per day. On no medications. PE: alert, articulate, no apparent distress although moderately anxious. Pt has mildly injected conjunctiva, no lacrimation, no rhinorrhea, no stridor or coughing, wheezing. There is no skin rash other than a small dried patch of dermatitis on the forearm and pahm. He also has 1-2 small pimples in his right axilla. none on the neck area.                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| was completely closed, had headache and felt panicky. After         showering_at-home, he_still felt extremely panicked and felt         that he lost of his strength, fell down on the bathroom floog         with LOC and couldn't move. Paramedics were summoned. He now         feels_completely_well_except for some residual_eye_burning.         Apparently, they have had samples of the snokey material from         around the work place analyzed and "it's organic" but no identifiable         substance-found. They have attempted to obtained assistance         from Cal OSHA and County environmental health and apparently         without success. They are considering legal action, against         the landlord.—Past medical hx: negative. Of note however: pt         is a heavy smoker, 2 packs per day. On no medications.         PE: alert, articulate, no apparent distress although moderately         anxious.—Pt has mildly injected conjunctiva, no lacrimation,         no rhinorrhea, no stridor or coughing, wheezing. There is no         skin rash other than a small dried patch of dermatitis on the         forearm and palm. He also has 1-2 small pimples in his right         axilla, none on the neck area.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| showering at home, he still felt extremely panicked and felt<br>that he lost of his strength, fell down on the bathroom floog<br>with LOC and couldn't move. Paramedics were summoned. He now<br>feels-completely well-except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "ir's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: -pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CHARGED: MMPROVED UNCHANGED CRITICAL DECEASED<br>POSITION: HOME HOSPITAL WORK OTHER<br>CONDITION: AMBULANCE CARRIED W/C GURNEY AMBULATORY<br>INFIED: CORONER HEALTH ANNMAL POLICE CHILD<br>PATE TIME OUT<br>TIME OUT<br>THEED: CORONER HEALTH ANNMAL POLICE CHILD<br>PATE TIME OUT<br>DATE TIME OUT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                |             |                                                    |                   |                                         |               |                                                                                                                 |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | nahari na dana 1990 - | that he lost of his strength, fell down on the bathroom flood<br>with LOC and couldn't move. Paramedics were summoned. He now TREATMENT/ORDERS:<br>feels completely well except for some residual eye burning.<br>Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla. none on the neck area.<br>CHARGED: MPROVED UNCHANGED CRITICAL DECEASED<br>POSITION: HOME HOSPITAL WORK OTHER<br>CONDITION: AMBULANCE CARRIED W/C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| feels completely well except for some residual eye burning.         Apparently, they have had samples of the smokey material from         around the work place analyzed and "it's organic" but no identifiable         substance found. They have attempted to obtained assistance         from Cal OSHA and County environmental health and apparently         without success. They are considering legal action, against         the landlord. Past medical hx: negative. Of note however: pt         is a heavy smoker, 2 packs per day. On no medications.         PE: alert, articulate, no apparent distress although moderately         anxious. Pt has mildly injected conjunctiva, no lacrimation,         no rhinorrhea, no stridor or coughing, wheezing. There is no         skin rash other than a small dried patch of dermatitis on the         forearm and palm. He also has 1-2 small pimples in his right         axilla. none on the neck area.                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Apparently, they have had samples of the smokey material from<br>around the work place analyzed and "it's organic" but no identifiable<br>substance found. They have attempted to obtained assistance<br>from Cal OSHA and County environmental health and apparently<br>without success. They are considering legal action, against<br>the landlord. Past medical hx: negative. Of note however: pt<br>is a heavy smoker, 2 packs per day. On no medications.<br>PE: alert, articulate, no apparent distress although moderately<br>anxious. Pt has mildly injected conjunctiva, no lacrimation,<br>no rhinorrhea, no stridor or coughing, wheezing. There is no<br>skin rash other than a small dried patch of dermatitis on the<br>forearm and palm. He also has 1-2 small pimples in his right<br>axilla, none on the neck area.<br>CHARGED: MPROVED UNCHANGED CRITICAL DECEASED<br>POSITION: HOME HOSPITAL WORK OTHER<br>CONDITION: AMBULANCE CARRIED W/C GURNEY AMBULATORY<br>INFIED: CORONER HEALTH ANIMAL POLICE CHILD<br>POTHER CONTROL POLICE CHILD<br>POTHER DEPT.                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| around the work place analyzed and "ir's organic" but no identifiable substance found. They have attempted to obtained assistance from Cal OSHA and County environmental health and apparently without success. They are considering legal action, against the landlord. Past medical hx: negative. Of note however: -pt is a heavy smoker, 2 packs per day. On no medications. PE: alert, articulate, no apparent distress although moderately anxious. Pt has mildly injected conjunctiva, no lacrimation, no rhinorrhea, no stridor or coughing, wheezing. There is no skin rash other than a small dried patch of dermatitis on the forearm and palm. He also has 1-2 small pimples in his right axilla, none on the neck area. ## MATERIAL SAFETY DATA SHEET

ty <u>1.1 at 75°F</u> > 300°F

## I. PRODUCT IDENTIFICATION

| Product Name <u>ADHESIVE/SEALANT 24</u><br>Product Type <u>Anaerobic</u>                                                               |                                               | No. 242<br>ula No |
|----------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|-------------------|
| COMPOSITION                                                                                                                            |                                               |                   |
| Ingredients                                                                                                                            | <u>% by Wt.</u>                               | Hazard            |
| Polyglycol Dimethacrylates<br>Polyglycol Oleates<br>Saccharin**<br>Silicon Dioxide***<br>Cumene Hydroperoxide*<br>N,N-Dialkyltoluidine | 60-65<br>25-30<br>3-5<br><2<br><2<br><2<br><1 | See Section IV.   |

\*In a single test, pure cumene hydroperoxide caused tumors in one of thirty experimental animals when injected under the skin. \*\*Saccharin has been shown to cause tumors in experimental animals when fed in large amounts for prolonged periods. \*\*\*Inhalation of pure silicon dioxide dust has been shown to cause pulmonary effects. In light of the low concentration of these components in the product, it is our best technical judgment that normal use of this product poses no such hazards. These warnings are present only to comply with OSHA regulations.

## MATERIAL SAFETY DATA SHEET

PRODUCT IDENTIFICATION Ι.

| Product | Name | ADHESIVE/SEALANT 262 | Part No. 262 |
|---------|------|----------------------|--------------|
| Product | Туре | Anaerobic            | Formula No.  |

II. COMPOSITION

| Ingredients                                     | % by Wt.     | Hazard          |
|-------------------------------------------------|--------------|-----------------|
| Polyglycol dimethacrylates                      | 70-75        | See Section IV. |
| Bis-Phenol A Fumarate Resins<br>Polyethylene*** | 15-20<br>2-3 |                 |
| Saccharin**                                     | <2           |                 |
| Cumeme Hydroperoxide*                           | <2           |                 |
| Silicon Dioxide****                             | <1           | J.              |
| N,N-Dialkyltoluidines                           | <1           | Ť               |

\*In a single test, pure cumene hydroperoxide caused tumors in one of thirty experimental animals when injected under the skin. \*\*Saccharin has been shown to cause tumors in experimental animals when fed in large amounts for prolonged periods. \*\*\*Pure polyethylene has been shown to cause tumors in experimental animals when implanted beneath the skin. \*\*\*\*Inhalation of pure silicon dioxide dust has been shown to cause pulmonary effects. In light of the low concentration of these compnents in the product, it is our best technical judgment that normal use of this product poses no such hazards. These warnings are present only to comply with OSHA regulations.

III. CHEMICAL AND PHYSICAL PROPERTIES

| Vapor Pressure < 5 mm at 80°F | Specific Gravity 1.05 at 80°F |
|-------------------------------|-------------------------------|
| Vapor Density Unknown         | Boiling Point > 300°F         |
| Solubility in Water Slight    | pH dna                        |
| Appearance <u>Red Liquid</u>  | Odor Mild                     |

#### IV. TOXICITY AND HEALTH HAZARD DATA

Toxicity Oral LD50 >5000 mg/kg Does not apply TLV Dermal LD50 >2000 mg/kg Symptoms of Overexposure — Pry cause dermatitis on prolonged contact in sensitive individuals.

Emergency Treatment Procedures Ingestion: Do not induce vomiting. Keep individual calm. Obtain medical attention. Inhalation: <u>Does not apply</u>. Skin Contact: <u>Flush with water</u>. Eye Contact: Flush with water. Personal Protection

Eyes: Safety glasses recommended.

Skin: <u>Rubber or plastic gloves recommended.</u> Ventilation: <u>Not normally necessary.</u>

MATL NAME: SILASTIC(R) 732 RTV SEALANT - CLEAR EMERGENCY TELEPHONE NO. (517) 496-5900 SECTION I - GENERAL INFORMATION MANUFACTURERS NAME: DOW CORNING CORPORATION ADDRESS: SOUTH SAGINAW ROAD, MIDLAND MI 48686 PROPER SHIPPING NAME(49CFR 172.101): NONE D.O.T. HAZARD NAME(49CFR 172.101): NONE D.O.T. HAZARD NAME(49CFR 172.101): NONE D.O.T. ID NO(49CFR 172.101): NONE RCRA HAZARD CLASS(49CFR 172.101): NONE RCRA HAZARD CLASS(40CFR 261)(IF DISCARDED): NONE E.P.A. PRIORITY POLLUTANTS(40CFR 122.53): NONE NFPA = NATIONAL FIRE PROTECTION ASSOCIATION - 704 HEALTH (NFPA): 1 FLAMMABILITY (NFPA): 1 REACTIVITY (NFPA): 1 CAS NO: MIXTURE DOW CORNING WARNING CODE: 57 GENERIC DESCRIPTION: .SILICONE \_\_\_\_\_ SECTION II - HAZARDOUS INGREDIENT · ACETOXYSILANE % 5 TLV (UNITS): 10 PPM; PEL TLV (UNITS): 10 PPM %

ONLY THOSE INGREDIENTS LISTED IN THIS SECTION HAVE BEEN DETERMINED TO BE HAZARDOUS AS DEFINED IN 29 CFR 1910.1200. AN INGREDIENT MARKED WITH AN ASTERISK(\*) IS ALSO LISTED IN 29 CFR 1910.1200(D) #4 AS KNOWN OR SUSPECTED CARCINOGEN.

COMMENT:TLV FOR ACETOXYSILANE BASED ON ACETIC ACID.

MATL NAME: SILASTIC(R, 732 RIV SEALANT - CLEAR

SECTION III - EFFECTS OF OVEREXPOSURE

EYES: MAY IRRITATE WITH SLIGHT PAIN, REDNESS, AND POSSIBLE MINOR CORNEAL INJURY.

SKIN: A SINGLE EXPOSURE FOR SEVERAL HOURS MAY CAUSE SLIGHT REDDENING. LONGER OR REPEATED CONTACTS MAY CAUSE MODERATE IRRITATION AND POSSIBLY A MILD BURN.

INHALATION: NO EFFECTS EXCEPT VERY SLIGHT IRRITATION OR PAIN TO THE EYES OR RESPIRATORY PASSAGES.

ORAL: AMOUNTS TRANSFERRED TO THE MOUTH BY FINGERS, ETC., DURING NORMAL OPERA-TIONS SHOULD NOT CAUSE INJURY. SWALLOWING SUBSTANTIAL AMOUNTS MAY CAUSE SOME INJURY.

COMMENT: NO KNOWN ADVERSE CHRONIC HEALTH EFFECTS, BUT UNNECESSARY EXPOSURE TO ANY CHEMICAL SHOULD BE AVOIDED. THIS PRODUCT, AS WITH ANY CHEMICAL, MAY ENHANCE ALLERGIC CONDITIONS ON CERTAIN

PEOPLE. WE DO NOT KNOW OF ANY MEDICAL CONDITIONS THAT MIGHT BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT.

SECTION IV - EMERGENCY AND FIRST AID PROCEDURES

EYES: FLUSH WITH WATER FOR 15 MINUTES. OBTAIN IMMEDIATE MEDICAL ATTENTION.

SKIN: WIPE OFF AND FLUSH WITH WATER.

INHALATION: REMOVE TO FRESH AIR. OBTAIN IMMEDIATE MEDICAL ATTENTION.

ORAL: OBTAIN IMMEDIATE MEDICAL ATTENTION.

COMMENT: NONE

SECTION V - FIRE AND EXPLOSION DATA

FLASH POINT (METHOD USED): OPEN CUP ABOVE 250°F/120°C AUTOIGNITION: NOT DETERMINED FLAMMABILITY LIMITS IN AIR : LOWER:N.D. UPPER: N.D.

EXTINGUISHING MEDIA: WATER WATER FOG X CO2 X DRY CHEMICAL X FOAM X OTHER

SPECIAL FIRE FIGHTING PROCEDURES: SELF\_CONTAINED BREATHING APPRARATUS AND PROTECTIVE CLOTHING SHOULD BE WORN IN FIGHTING FIRES INVOLVING CHEMICALS

UNUSUAL FIRE AND EXPLOSION HAZARDS: NOT KNOWN TO DOW CORNING

COMMENTS: N.D. - NOT DETERMINED.

SECTION VI - PHYSICAL DATA

BOILING POINT(@ 760 MM HG): ABOVE 300°F/149°C SPECIFIC GRAVITY (AT 77 DEG F/25 DEG C): 1.05 MELTING POINT: NOT APPLICABLE VAPOR PRESSURE (AT 77 DEG F/25 DEG C): LESS THAN 5 MM VAPOR DENSITY (AIR = 1 AT 77 DEG F/25 DEG C): NOT APPLICABLE PERCENT VOLATILE BY VOLUME (%): LESS THAN 5% EVAPORATION RATE (ETHER = 1): LESS THAN 1 SOLUBILITY IN WATER(%): LESS THAN 0.1% ODOR, APPEARANCE, COLOR: ACETIC ACID-LIKE, PASTE, CLEAR.

NOTE: THE ABOVE INFORMATION IS NOT INTENDED FOR USE IN PREPARING PRODUCT SPECIFICATIONS. CONTACT DOW CORNING BEFORE WRITING SPECIFICATIONS DOW CORNING CORPORATION MATE NAME: SILASTIC(R) 732 RIV SEALANT - CLEAR

SECTION VII - REACTIVITY DATA

STABILITY: STABLE

INCOMPATABILITY(MATERIAL TO AVOID): OXIDIZING MATERIAL CAN CAUSE A REACTION.

CONDITIONS TO AVOID: AIR OR MOISTURE CAUSES POLYMERIZATION AND ACETIC ACID VAPORS ARE FORMED.

HAZARDOUS DECOMPOSITION PRODUCTS: SILICON DIOXIDE, CARBON DIOXIDE, AND TRACES OF INCOMPLETELY BURNED CARBON PRODUCTS.

HAZARDOUS POLYMERIZATION: WILL NOT OCCUR

CONDITIONS TO AVOID: NOT APPLICABLE

COMMENTS: NONE

SECTION VIII - SPILL, LEAK AND DISPOSAL PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: REMOVE PRODUCT AND USE ABSORBENT MATERIAL TO TAKE CARE OF ANY OIL-LIKE RESIDUES.

PROTECTIVE EQUIPMENT: EYES: USE CHEMICAL WORKER GOGGLES

SKIN: AVOID CONTACT BY USING IMPERVIOUS PROTECTIVE CLOTHING: RUBBER OR PLASTIC GLOVES, APRONS, BOOTS, ETC. USE PROTECTIVE GLOVES AS A MINIMUM AND WASH IMMEDIATELY UPON ANY DETECTABLE CONTACT.

INHALATION: USE RESPIRATORY PROTECTION UNLESS LOCAL EXHAUST VENTILATION IS ADEQUATE OR AIR SAMPLING DATA SHOW EXPOSURES ARE WITHIN TLV AND PEL GUIDE-LINES.

WASTE DISPOSAL METHOD: DOW CORNING SUGGESTS THAT ALL LOCAL, STATE AND FEDERAL REGULATIONS CONCERNING HEALTH AND POLLUTION BE REVIEWED TO DETERMINE APPROVED DISPOSAL PROCEDURES. CONTACT DOW CORNING IF THERE ARE ANY DISPOSAL QUESTIONS.

D.O.T. (49CFR 171.8)/E.P.A. (40CFR 117) SPILL REPORTING INFORMATION HAZARDOUS SUBSTANCE: NONE CONCENTRATION OF HAZARDOUS SUBSTANCE: NOT APPLICABLE REPORTABLE QUANTITY OF PRODUCT: NOT APPLICABLE

COMMENTS: NONE

SECTION IX - ROUTINE HANDLING PRECAUTIONS

PROTECTIVE EQUIPMENT:

EYES: USE PROPER EYE PROTECTION -- SAFETY GLASSES, AS A MINIMUM.

SKIN X: WASHING AT MEALTIME AND END OF SHIFT IS ADEQUATE.

INHALATION: USE RESPIRATORY PROTECTION UNLESS LOCAL EXHAUST VENTILATION IS ADEQUATE OR AIR SAMPLING DATA SHOW EXPOSURES ARE WITHIN TLV AND PEL GUIDE-LINES.

VENTILATION: LOCAL EXHAUST: NONE MECHANICAL (GENERAL): RECOMMENDED

SUITABLE RESPIRATOR: ACID GAS/ORGANIC VAPOR TYPE.

THESE PRECAUTIONS ARE FOR ROOM TEMPERATURE HANDLING, USE AT ELEVATED TEMPERATURE MAY REQUIRE ADDED PRECAUTIONS \* GOOD PRACTICE REQUIRES (DAL, DROSS AMOUNT OF ANY CHEMICAL BE REMOVED FROM THE SKIN AS SOON AS PRACTICAL, ESPECIALLY BEFORE EATING OR SMOKING. COMMENTS: NONE

SECTION X - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STURING: STORE BELOW 90F/32C. USE REASONABLE CARE AND CAUILON.

OTHER PRECAUTIONS: NONE KNOWN TO DOW CORNING. COMMENTS: NONE

### DOW CORNING CORPORATION MATE NAME: SILASTIC(R) 732 RTV SEALANT - CLEAR

THESE DATA ARE OFFERED IN GOOD FAITH AS TYPICAL VALUES AND NOT AS A PRODUCT SPECIFICATION. NO WARRANTY, EITHER EXPRESSED OR IMPLIED, IS HEREBY MADE. THE RECOMMENDED INDUSTRIAL HYGIENE AND SAFE HANDLING PROCEDURES ARE BELIEVED TO BE GENERALLY APPLICABLE. HOWEVER, EACH USER SHOULD REVIEW THESE RECOMMENDATIONS IN THE SPECIFIC CONTEXT OF THE INTENDED USE AND DETERMINE WHETHER THEY ARE APPROPRIATE.

#### NITRIDING

Uses: Intermediate in production of nitric acid from ammonia; preparation of nitrosyl carbonyls; bleaching rayon.

Shipping regulations: (Rail) Poison Gas label. Not accepted passenger. (Air) Not acceptable.

- nitriding. A process of case hardening in which a ferrous alloy, usually of special composition, is heated in an atmosphere of ammonia or in contact with nitrogenous material to produce surface hardening by absorption of the nitrogen without quenching. The alloys used for nitriding are known as nitroalloys. Several types are available with ranges of composition as follows: aluminum 0.85-11.2%; carbon 0.20-0.45%; chromium none to 1.8%; molybdenum 0.15-1.00%; manganese 0.4-0.7%; silicon 0.2-0.4%.
- nitrile. An organic compound containing the -CN grouping, for example, acrylonitrile H<sub>2</sub>C: CHCN; it may also contain a triple bond as an acetonitrile (CH<sub>3</sub>C $\equiv$ N).

Hazard: Some organic cyanide compounds are toxic and flammable (acetonitrile, acrylonitrile).

nitrile rubber (acrylonitrile rubber; acrylonitrilebutadiene rubber; nitrile-butadiene rubber; NBR). A synthetic rubber made by random polymerization of acrylonitrile with butadiene by free radical catalysis. Alternating copolymers using Natta-Ziegler catalyst have been developed. About 20% of the total is used as latex; also available in powder form. lts repeating structure may be represented as --CH<sub>2</sub>CH=CHCH<sub>2</sub>CH<sub>2</sub>CH(CN)-.

Typical properties: (Medium acrylonitrile): Sp. gr. (polymer) 0.98; tensile strength (psi) 1000 to 3000; elongation (%) 100 to 700; maximum service temperature 121-148° C. Combustible.

Uses: (High acrylonitrile): Oil well parts; fuel tank liners; fuel hose; gaskets; packing oils seals; hydraulic equipment.

(Medium acrylonitrile): General-purpose oil-resistant applications; shoe soles; kitchen mats, sink topping, and printing rolls.

(Low acrylonitrile): Gaskets, grommets, and Orings (flexible at a very low temperature); adhesives. Binder-fuel in solid rocket propellants.

- nitrile-silicone rubber (NSR). Combines the characteristic properties of silicones with the oil resistance of nitrile rubber. Resistant to jet fuels, solvents and hot oils.
- nitrilotriacetic acid (NTA; triglycine; TGA; triglycollamic acid) N(CH<sub>2</sub>COOH)<sub>3</sub>.

Properties: White crystalline powder; m.p. 240°C (with decomposition); insoluble in water and most organic solvents; forms mono-, di-, and tribasic salts which are water-soluble. Combustible; 70% biodegradable.

Hazard: May be carcinogenic.

Uses: Synthesis; chelating agent; eluting agent in

purification of rare-earth elements der (restricted). Also available as the di- and trisodium

nitrilotriacetonitrile (NTAN) N(CHCCH talline solid; m.p. 130-134°C; msolu soluble in acetone. Used as an interchelating agent.

Hazard: May be toxic. See nitrile.

- para-nitroacetanilide NO<sub>2</sub>C<sub>6</sub>H<sub>4</sub>NHCOC Properties: White crystals; soluble in the ether; very slightly soluble in cold vatehot water, in potassium hydroxide rom 214-216°C. Combustible. Derivation: By acetylating aniline, then no Use: Manufacture of nitraniline.
- para-nitro-ortho-aminophenol C.H.OHN Properties: Yellow-brown leaflets contraof crystallization melting at 80 to 90° c melts at 154° C. Soluble in acid. Derivation: From dinitrophenol. Hazard: Probably toxic. Use: Dyes.

meta-nitroaniline (meta-nitraniline) NOC Properties: Yellow needles; sp. gr. 143 m. b.p. 306°C; soluble in alcohol and ch soluble in water.

Derivation: From aniline by nitration are tion, with subsequent removal of the acen hydrolysis; from *m*-nitrobenzoic acid.

Hazard: Toxic; absorbed by skin. Modern

Uses: Dye intermediate.

Shipping regulations: (Rail, Air) Poison

ortho-nitroaniline (ortho-nitraniline) NO. Properties: Orange-red needles; 50, 7 69.7° C. Soluble in alcohol and ether, 10 in water. Not light-fast. Flashpoint 339 Autoignition temp. 970° F (521° C).

Derivation: From aniline by nitration, the tion, with subsequent removal of the tary hydrolysis; from o-dinitrosobenzation

Containers: Drums; kegs. Hazard: Toxic; absorbed by skin Erpe Uses: Dye intermediate; synthesis of antifogging agent, ortho-phenylenedia

diostats. Shipping regulations: (Rail, Air) Portuge

para-nitroaniline (para-nitraniline) Properties: Yellow needles; sp. grflash point 390° F (198° C). Combu alcohol and ether, insoluble in wat Derivation: (a) From *p*-chloronitrob aniline by nitration after aceivit acetanilide. Containers: Drums; carloads. Hazard: Toxic, absorbed by skin in air. Explosion risk.

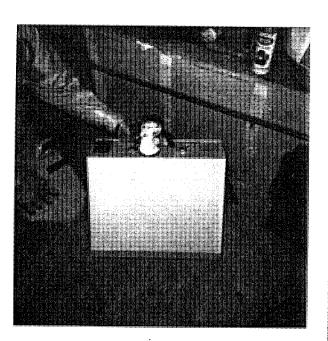

Uses: Dye intermediate, especially

Mr. Robert L. Zaletel 155 Sansome St., Suite 800 San Francisco, CA 94104

Dear Mr. Zaletel:

This letter is sent per your request to Mr. Rafat Shahid, for our Master File Record from Siemens concerning the chemicals they have on hand.

The list of chemicals & waste submitted to our office is:

1.1.1 Trichloroethane
Petroleum Naptha
Paint Thinner
Paint Waste
Tank Bottom Sediment

If you have any questions, please call Edgar Howell, Senior Hazardous Materials Specialist, at 874-7237.

Sincerely,

PLEA SWL

Rafat A. Shahid, Chief, Hazardous Materials Division

RAS:mnc

cc: Gerald Winn, Director Gil Jensen, Alameda County District Attorney, Consumer & Environmental Protection Agency Mr. Manning Siemens

> Re: Michael King, et al. v. Siemens Energy and Automation Service, et al.

Dear Mr. Howell:

Thank you for taking the time to discuss the above-captioned matter.

This correspondence will confirm our telephone conversation of November 16, 1988, wherein we arranged to take your deposition on Wednesday, December 7, 1988 at 1:30 p.m. in our Redwood City Office and have schedule a meeting for 10:00 a.m. at your office on November 30, 1988 to discuss this case and your deposition testimony. This will also confirm you have agreed to accept service of this Deposition Subpoena For Personal Appearance and Production of Doucments and Things by mail enclosed herewith. This subpoena requires you to produce all documents in your files pertaining to inspection and testing of property and premises controlled by Mr. Michael King, the plaintiff in the abovereferenced matter.

We would appreciate it if you could gather the documents regarding Mr. King prior to our November 30, 1988 meeting so that we can have a chance to discuss them with you.

Thank you again for your cooperation and we look forward to meeting you.

Very truly yours,

Dennis D Strieguro

Dear Mr. Howell:

Thank you for discussing the above-captioned matter with us on August 26, 1988. It is likely that we will be in contact with you in the future to further discuss your knowledge of this case.

In the meantime, if any additional information regarding this matter comes to mind, please give us a call immediately. For your convenience, we have attached a number of our business cards to help us keep in contact.

Thank you again for your cooperation and we look forward to speaking with you again.

Very truly yours,

Dannis D.Strogalo Dennis D. Strazulo

HEALTH CARE SERVICES

Mr. Mike King 1712 Calais Ct. Hayward, CA 94541

Dear Mr. King:

After your request of April 14, 1987, concerning the symptoms you and your family have been experiencing, the following action have been taken:

- A visit to the suite of offices formerly occupied by your company at 3475 Investment Blvd. Hayward, 2nd Floor.
- 2. An inspection of the company occupying the ground floor at 3475 Investment Blvd., Hayward, on April 20, 1987.
- Checked and took a sample of dust from Savin Copier at 1612 Whipple Road, Hayward, unit H-59. Copier had been used at the Investment Blvd. office on April 21, 1987.
- 4. Took wipe dust samples from portable computer (inside and outside cover) and from printer at 1712 Calais Ct., Hayward, on April 21, 1987. These pieces of equipment were stored in your garage in double garbage bags wraps.
- 5. Contacted Mr. Mel Carter of Carter Labs, concerning samples taken by himself and you. No written reports have been received from him to date.
- Contacted and received a copy of medical record released by you, from Eden Emergency Room, Eden Hospital, Castro Valley. Seen on April 14, 1987, by Dr. Olson.
- 7. Environmental Health Lab has run the samples collected by both, Gas Chromatography for solvents and Infrared Spectrocopy for non-volatile organics. Nothing was found by our lab.

The inspection of 3475 Investment Blvd., Hayward, first floor and subsequent samples taken from equipment at your storage site on Whipple Road and your garage, could not reveal the presence of hazardous chemicals in the samples tested. Mr. Mike King Hayward, CA 94541 May 15, 1987 Page 2 of 2

If you have any questions, please contact Edgar B. Howell, III, Senior Hazardous Materials Specialist, at 874-7237.

Sincerely,

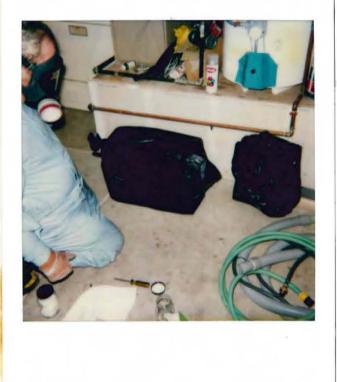

16

#### BUSINESS LICENSE APPLICATION REVIEW

#### Attention Business License Applicant:

The Revenue Division has referred you to the Fire Department because you had checked certain boxes in Sections 7-10 on the Business Tax Form Supplement. Please complete and sign Part I below. More detailed information on your business will assist us in scheduling inspections necessary to satisfy local Fire, Building, Planning, and Hazardous Materials codes and regulations. If the reviewer checks any box in Part II below, it is your responsibility to obtain the necessary permits or to follow up on any inspections required.

This "over the counter" review does not provide any Fire Department approvals for your business nor does it constitute a "Permit to Operate."

| PART I                                                                                                                                                                                                                                                |

#### CLAIM OF EXEMPTION For Reporting Year 2011

#### HAZARDOUS MATERIALS BUSINESS PLAN / HAZARDOUS MATERIALS INVENTORY

AUG

You may be exempted from the filing of a Hazardous Materials Business Plan (HMBP) by completing, signing, and submitting this Claim of Exemption... ONLY IF ALL OF THE FOLLOWING APPLY:

- (1) You have no hazardous materials or you do not generate hazardous waste at this facility; OR not one type of hazardous material or hazardous waste found in your facility exceeds 55 gallons (if liquid), 500 pounds (if solid), or 200 cubic feet at standard temperature and pressure (if gaseous); OR you meet any one of the following exemption conditions:
  - A. If you are a physician, dentist, podiatrist, veterinarian and or pharmacist and you store up to 1,000 cu. ft. of medical gases like oxygen, nitrogen, or nitrous oxide you are exempt from filing an HMBP. (You may have 1,000 cu. ft. of each and still claim the exemption). IF YOU ARE A NEW BUSINESS, YOU MUST STILL NOTIFY THE HAYWARD FIRE DEPARTMENT AND COMPLETE THE FORMS, ONE TIME ONLY.
  - B. Up to 275 gallons of lubricating oils and related materials (e.g. hydraulic fluids, crankcase oils, grease, or transmission fluid) is EXEMPT, IF you do not have more than 55 gallons of any one type of product. WASTE OIL IS NOT EXEMPT AND MUST BE REPORTED AT OR ABOVE 55 GALLONS, EVEN IF YOU QUALIFY FOR THE LUBRICATING OIL EXEMPTION. Submit an HMBP if you have over 55 gallons of waste oil or over 55 gallons of one type of lubricating oil.
  - C. Hazardous materials contained solely in a consumer product for direct distribution to, and for use by the general public is EXEMPT. WAREHOUSE QUANTITIES ARE NOT EXEMPT.
- (2) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.); AND
- (3) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this form.

#### I CERTIFY UNDER PENALTY OF LAW THAT :

I have personally investigated and I am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

UPCF Rev. Hayward 2010

#### CLAIM OF EXEMPTION For Reporting Year 2010

## FIRE PREVENTION OFFICI

MAR 0 4 2010

#### HAZARDOUS MATERIALS BUSINESS PLAN / HAZARDOUS MATERIALS INVENTORY

HAYWARD FIRE DEPARTMENT

You may be exempted from the filing of a Hazardous Materials Business Plan (HMBP) by completing, signing, and submitting this Claim of Exemption... ONLY IF ALL OF THE FOLLOWING APPLY:

- (1) You have no hazardous materials or you do not generate hazardous waste at this facility; OR not one type of hazardous material or hazardous waste found in your facility exceeds 55 gallons (if liquid), 500 pounds (if solid), or 200 cubic feet at standard temperature and pressure (if gaseous); OR you meet any one of the following exemption conditions:
  - A. If you are a physician, dentist, podiatrist, veterinarian and or pharmacist and you store up to 1,000 cu. ft. of medical gases like oxygen, nitrogen, or nitrous oxide you are exempt from filing an HMBP. (You may have 1,000 cu. ft. of each and still claim the exemption). IF YOU ARE A NEW BUSINESS, YOU MUST STILL NOTIFY THE HAYWARD FIRE DEPARTMENT AND COMPLETE THE FORMS, ONE TIME ONLY.
  - B. Up to 275 gallons of lubricating oils and related materials (e.g. hydraulic fluids, crankcase oils, grease, or transmission fluid) is EXEMPT, IF you do not have more than 55 gallons of any one type of product. WASTE OIL IS NOT EXEMPT AND MUST BE REPORTED AT OR ABOVE 55 GALLONS, EVEN IF YOU QUALIFY FOR THE LUBRICATING OIL EXEMPTION. Submit an HMBP if you have over 55 gallons of waste oil or over 55 gallons of one type of lubricating oil.
  - C. Hazardous materials contained solely in a **consumer product** for direct distribution to, and for use by the general public is EXEMPT. WAREHOUSE QUANTITIES ARE NOT EXEMPT.
- (2) You have not been required expressly by the Hayward Fire Department to submit an HMBP despite the low level of inventory. (In exceptional cases, the Fire Department may require an HMBP from a facility even if its inventory does not meet the thresholds in (1) above, if the materials involved are radioactive or otherwise extremely or acutely hazardous.); AND
- (3) You, as the business owner or its officially designated representative, can sign and attest to all the statements in this form.

#### I CERTIFY UNDER PENALTY OF LAW THAT :

I have personally investigated and I am familiar with the information referred to in this document as it applies to this facility. Based on my inquiry, I believe that this facility is exempted from the requirement to prepare and submit a Hazardous Materials Business Plan, at this time. Should the inventory change and this facility no longer meets the exemption conditions described above, I will file the required HMBP within 30 days of such change.

BUSINESS LICENSE APPLICATION REVIEW

# \$2980 1NV285

#### Attention Business License Applicant:

The Revenue Division has referred you to the Fire Department because you had checked certain boxes in Sections 7-10 on the Business Tax Form Supplement. Please complete and sign Part I below. More detailed information on your business will assist us in scheduling inspections necessary to satisfy local Fire, Building, Planning, and Hazardous Materials codes and regulations. If the reviewer checks any box in Part II below, it is your responsibility to obtain the necessary permits or to follow up on any inspections required.

This "over the counter" review does not provide any Fire Department approvals for your business nor does it constitute a "Permit to Operate."

| PART I                                                                                                                                                                                                                                                |
