Stop Fountain Wind

I am writing this letter to express my opposition to the Fountain Wind Project in Shasta County. This is a great project for the WRONG area. Industrial windfarms do not belong on land designated for forest production. This project would create a 35,000 acre "no fly zone" in the event of a wildfire as the turbines would be scattered across several ridge tops and not in a straight line. The proposed project area sits in one of the highest fire danger areas of California. Please do not approve this ill advised project. It could cause the death of many Shasta county residents.

Sincerely, Jess R Lattin
