Make HEEHRA available YESTERDAY

As far as I can tell, California has applied for benefits under HEEHRA, and has been awarded \$4.972 million out of \$290.252 sought in its initial application. I would suggest that somebody in the CEC light a fire under the butts of everyone involved, and get at least \$100 million awarded YESTERDAY so this program can begin. I have a gas furnace, a gas hot water heater, and a gas clothes drier which I would IMMEDIATELY UPGRADE to electric and/or electric heat pump appliances if HEEHRA funding was available for contractors to access. It is time for CEC to take their thumbs out of their butts and get this money into the economy!! What is the hold up?

Waiting impatiently, Chuck Light
