## **How to Apply for the Rebates & Timeline**

Dear California Energy Commission (CEC) Team,

As someone who personally subscribes to all emails from HEEHRA and DOE, and actively seeks to stay well-informed about communications from CEC, I have a vested interest in the success of such programs.

I noticed that there is some ambiguity in the program details, particularly regarding the distribution and availability of rebates.

The program vaguely mentions how the rebates would be distributed to the retailer and ultimately to the consumers, but it lacks clarity on how exactly consumers can receive these rebates. It would be beneficial to have clear guidelines or instructions on the process for consumers to claim their rebates.

Additionally, there is uncertainty surrounding the duration of the rebate program and how long the rebates may last. Providing information on the timeline for updates on the availability of rebates would help consumers plan accordingly and take advantage of the program benefits.

I believe that addressing these concerns and providing clearer guidance to consumers would enhance the effectiveness and accessibility of the Inflation Reduction Act Residential Energy Rebate Programs.

Thank you for considering my feedback. I look forward to seeing further developments in this important initiative.

Best regards,

Zijian Daniel Zhang
