Offshore Wind Strategic Plan

I am strongly OPPOSED to building "wind farms" off the coast of California, particularly in my backyard, Morro Bay, California.

The harm these wind turbines, etc will do to the sealife, particularly whales, is devastating. Wind farms are an ecological nightmare. The disruption in the lives of sea creatures, i.e., vibration, oil leakage, disruption of the sea floor, is devastating.

It is NO COINCIDENCE of the increase in whale deaths over the past few years.

To reiterate, NO to these destructive and costly "green energy" fallacies,
