Filer:	Carlos Baez
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	4/11/2024 2:30:48 PM
Docketed Date:	4/11/2024

Item 8: Federal and Administrative Updates Rulemaking (Docket No. 22-AAER-04)

April 10, 2024 Business Meeting

Carlos Baez, Energy Commission Specialist II
Efficiency Division, Appliances Branch

Rulemaking Overview

- Provide federal alignment and administrative updates to Title 20, CCR sections 1601-1609 (the “Appliance Efficiency Regulations”)
- Does not propose any new energy or water efficiency standards for appliances, nor increases in stringency for existing standards

Benefits

- Clarifications ease compliance for manufacturers
- Eliminates duplicative and outdated information
- Regulations will reflect both state and federal requirements in a single location

Overview of Changes

Image Source: unsplash.com

- Updates to align with current US DOE regulations
- Updates and streamlining to CEC's enforcement related product compliance review and administrative proceedings

Overview of Changes Cont.

- Updates to data submittal requirements for certain appliances
- Removal of a redundant aspect of the marking requirement for commercial and industrial fans and blowers
- Other changes for clarity and consistency
