## **Majority in support of project**

Despite the County wasting our tax dollars to scare away business like this, the majority of people I speak with either support this project or don't know about it - but once informed say its no big deal as we've had a wind farm for past 12 years and nobody complains about that.

I ask the CEC not to be confused. NIMBYs usually dominate "comment boards" like this while the rest of us go on with our life hoping the government doesn't get bullied by the minority. This is good for Shasta County and most of us support.
