# CALCTP ACCEPTANCE TEST TECHNICIAN CERTIFICATION PROVIDER ANNUAL REPORT

PERIOD ENDING DECEMBER 31, 2023

Prepared by: The California Advanced Lighting Controls Training  
Program (CALCTP)

Submitted by: Mark V. Ouellette, CALCTP Administrator on Behalf of the CALCTP Board

April 26, 2024

# Lighting Controls Acceptance Test Technician Certification Provider (LCATTCP) Annual Report

## Introduction

The 2013 California Building Energy Efficiency Standards (“2013 Code”) requires lighting control acceptance tests to be performed by trained and certified Lighting Control Acceptance Test Technicians.<sup>1</sup>

The California Advanced Lighting Control Training Program (CALCTP) received interim approval as a lighting control acceptance test technician certification provider (LCATTCP) on April 1, 2014, and final approval as a LCATTCP on November 17, 2014. Furthermore, CALCTP demonstrated that the industry threshold certification of at least 300 lighting control acceptance test technicians was met and approved by the California Energy Commission (CEC) on June 16, 2014.

Pursuant to Section 10-103.1(d)1 of the *2022 Building Energy Efficiency Standards*, the ATTCP shall provide an annual report to the CEC summarizing the certification services provided over the reporting period and to date. Following the guidance letter received on February 29, 2024, from Daniel Wong of the CEC, the 2023 annual report is to include the following elements:

- A summary of the certification services provided over the reporting period and to date.
- A summary of all actions taken against any certified technician or employer.
- A summary of the quality assurance and accountability activities conducted over the reporting period and to date.
- A summary of the number and type of acceptance tests performed in each local jurisdiction over the reporting period and to date.
- A signed certification to the CEC that the ATTCP continues to meet the requirements of Section 10-103.1.

Answering these questions, the annual report covers the period from January 1, 2023, until December 31, 2023. As requested, CALCTP has also provided a list of the acceptance test projects completed during the reporting period.

---

<sup>1</sup> Cal. Code Regs., tit. 24 Part 6, § 130.4, subd (c).

**Bullet One:** A summary of the certification services provided over the reporting period, including the total number of Acceptance Test Technicians (ATT) and Acceptance Test Employers (ATE) certified by the ATTCP during the reporting period and to date.

As of December 31, 2023, CALCTP has certified 1,886 Lighting Controls Acceptance Test Technicians to perform the acceptance tests in Building Energy Efficiency Standards, Section 130.4. This includes 43 Lighting Controls Acceptance Test Technicians certified from January 1, 2023, through December 31, 2023. Attached as **Appendix A** is a list of the names and certification identification numbers of active CALCTP-AT certified Lighting Controls Acceptance Test Technicians. Each of these technicians has met the minimum pre-qualifications requirements, completed the classroom and hands-on training requirements, passed the certification exam, and completed 2022 Code Cycle training recertification. These existing and newly certified technicians include electrical contractors, general electricians, lighting controls engineers, lighting architects, and commissioning agents. Of certified acceptance test technicians, 544 have maintained their certification and are updated to the 2022 Code. As of 12/31/2023, of all Acceptance Test Technicians certified, 1,342 have lapsed certifications.

As of December 31, 2023, CALCTP has certified 618 Lighting Controls Acceptance Test Employers. This includes 10 new employers certified from January 1, 2023, to December 31, 2023. Attached as **Appendix B** is a list of the names and certification identification numbers of each of the 326 businesses that are currently certified as Lighting Controls Acceptance Test Technician Employers. These 326 employers are comprised of energy efficiency consultants, building contractors, electricians, and engineering firms. Of all employers, 292 are no longer certified as of 12/31/2023, either because their ATE certification was revoked or suspended due to a certification lapse, a C-10 License cancellation, or by choice.

**Bullet Two:** Summary of all actions taken against any certified ATT or ATE because of the complaint or quality assurance (QA) procedures described by the ATTCP, as required under §10-103.1(c)3D and §10-103.1(c)3F.

CALCTP's guidance on failures states that if a lighting controls ATT has failed either a paper quality assurance (QA) audit or an on-site-quality audit, the ATT will receive additional QA oversight. All QA issues resulting from audits were addressed through an education campaign with the ATT. As explained under Bullet Three, most issues were caused by ATTs misunderstanding of how the 2022 code impacted form completion. CALCTP conducted one-on-one education emails and phone calls with these technicians. Per the QA guidelines, CALCTP worked with the technician to remediate all paper and on-site issues and then retested the project. Exhibit 1 outlines future actions that will be taken for technicians that failed a QA audit.

**Exhibit 1. Overview of Future Actions Taken for Failed QA Audits**

<b>Result</b>	<b>% of Projects Audited</b>	<b>Action That Will Be Taken</b>
<b>Failed either a paper or on-site QA Audit</b>	50% of future projects audited until they have passed two (2) on-site audits	On-site QA audit only
<b>Failed a second QA audit, the second is an on-site audit</b>	100% of future projects audited, until they have passed four (4) on-site audits	On-site QA audit only
<b>Failed a third QA audit, while still in the failed pool.</b>		Recommendation sent to CALCTP Board to terminate from CALCTP-AT program

In addition to paper and on-site audits, CALCTP has set up a phone line and email system for complaints on technician and technician employers. The system also receives complaints on Authority Having Jurisdiction (AHJs) not requiring acceptance tests. All ATT complaints are verified with an audit on the property with the building owner and manager.

In 2023, no complaints against ATT/ATEs were received and CALCTP did not revoke any licenses for individuals or employers resulting from QA procedures. As noted below in Bullet Three, CALCTP conducted 289 audits following the approved audit processes outlined above.

Through the system in place, CALCTP received complaints of AHJs not requiring acceptance tests during 2023. As outlined in the CALCTP Handbook, if a complaint is reported, CALCTP will follow up and if the complaining individual provides specifics around a project, enforcement agency, or building permit number, the information will be forwarded to the CEC hotline. CALCTP shared information on counties not requiring acceptance (NRCA) forms with the CEC as follows:

**Reported to the CEC on 4/7/2023.** Notification from a CALCTP certified ATE that the AHJs associated with below projects did not request NRCAs, so acceptance tests cancelled.

<u>Project Name</u>	<u>County</u>	<u>Permit Number</u>
Frontier Ventures - Pasadena	Los Angeles	ELE2022-01656

<u>Project Name</u>	<u>County</u>	<u>Permit Number</u>
McDonalds - Carmel Mountain	San Diego	3172377
Zumiez - Corona	Riverside	B22-02325
McDonalds - Vista	San Diego	B21-0526
United Pacific	San Bernardino	BLDC21-00070

**Reported to CEC on 10/24/2023.** Reported by the CALCTP AT-Employer hired to perform acceptance tests on below, that projects cancelled because AHJs only requested NRCIs, stating they did not require NRCA documentation.

McD-Vista Way 1401 Vista Way, Vista, CA 92084 2019 Code Cycle 10/17/2023	City of Vista, County of San Diego	Permit #: B020-2214
La Popular Taqueria-Claremont 235 N. Yale Ave, Claremont CA 91711 2019 Code Cycle 10/13/2023	City of Claremont, County of Los Angeles	Permit #: B00-032-242

**Bullet Three:** A summary of the quality assurance and accountability activities conducted over the reporting period, including the compliance forms reviewed and the onsite audits performed as required under §10-103.1(c)3Fii during the reporting period and to date.

CALCTP's Quality Assurance Provider, ICF, conducted 289 audits in total, comprising 3.6% of all projects submitted during the 2023 Annual Report period. This included 82 on-site audits and 207 paper audits. Of all completed acceptance tests since July 1, 2014, ICF has conducted 2,851

audits, or 4.3% of all completed projects, including 675 on-site audits. Please consult **Appendix C** for a list of all compliance forms reviewed per each audit conducted in 2023. Of the 289 projects reviewed by CALCTP under its QA program, 81 projects had a failed item or failed result. Most of the failed items were due to misunderstanding of the 2022 California Building Energy Efficiency Standards. Of the 82 on-site audits conducted, three projects had failed items and/or tests. Per the QA guidelines, CALCTP worked with the technician to remediate the issue and allow for the technician to retest.

**Bullet Four: A summary of the number and type of acceptance tests performed in each local jurisdiction over the reporting period and to date.**

As part of the requirements, CALCTP AT Employers must provide copies of lighting control acceptance tests conducted within 48 hours of completion. During 2023, CALCTP Lighting Control Acceptance Test Employers and Lighting Control Acceptance Test Technicians conducted 8,054 acceptance test technician projects, totaling 65,800 projects conducted since July 1, 2014. There was an 1% increase in 2023 compared to 2022. The heat map in Exhibit 2 provides a geographic breakdown of all projects submitted in 2023. Additionally, a list of these projects is provided in a separate excel file under **Appendix C**, as part of this submission.

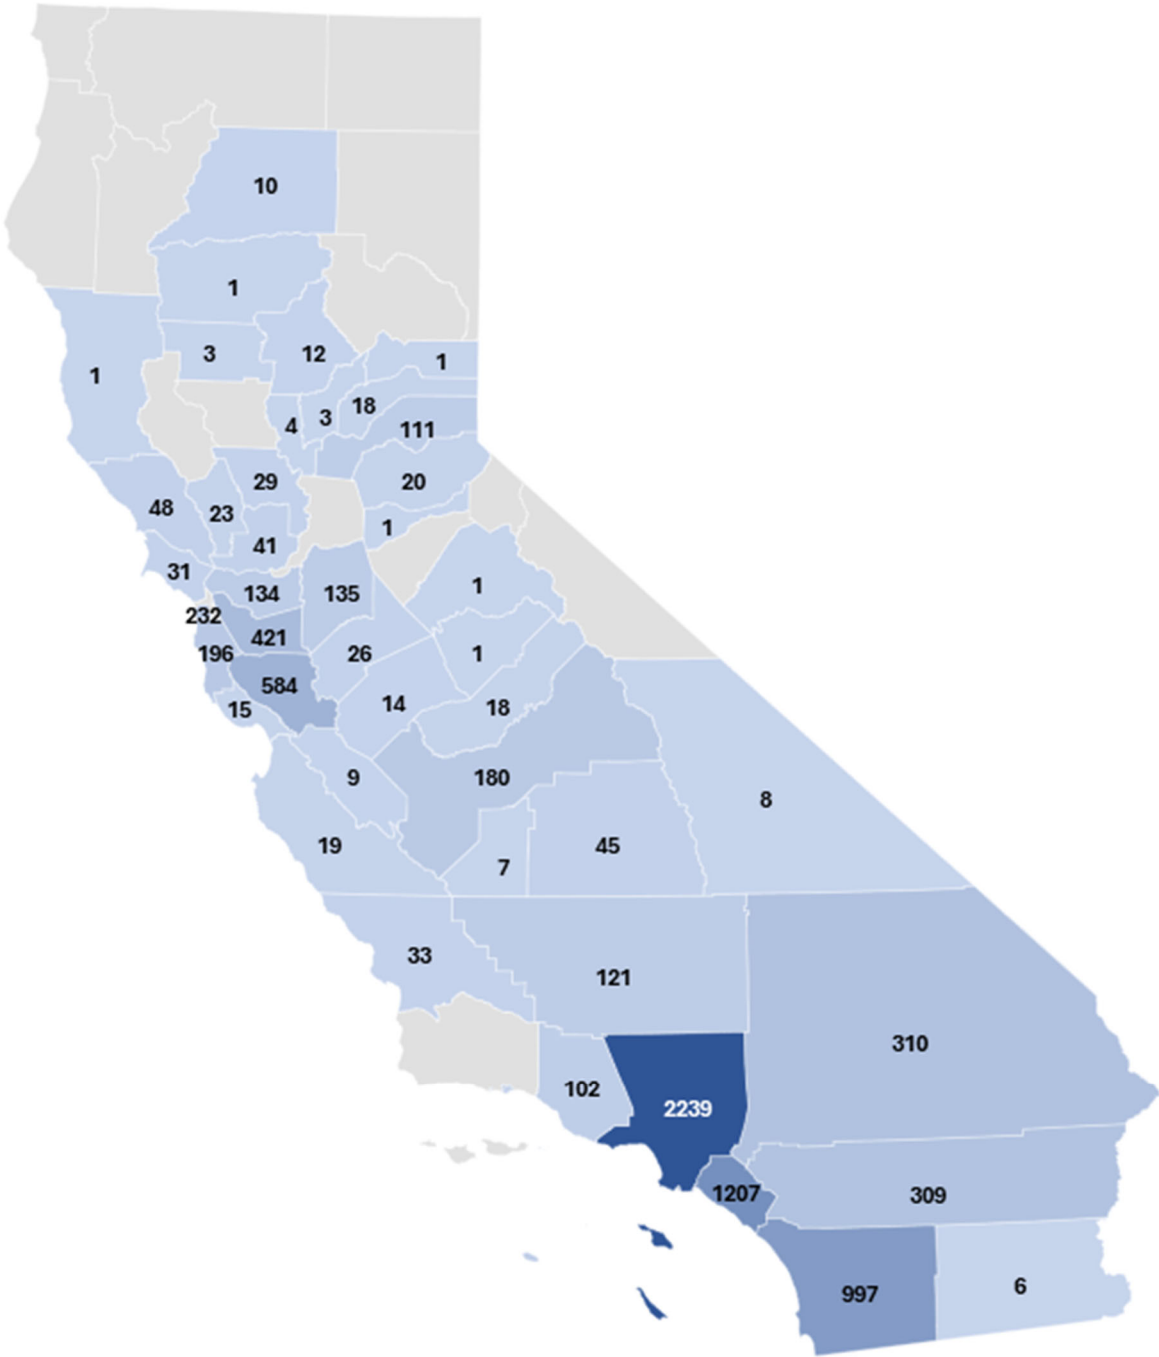

**Summarization of Department of State Architecture (DSA) projects.**

Exhibit 2. All Projects Submitted in 2023

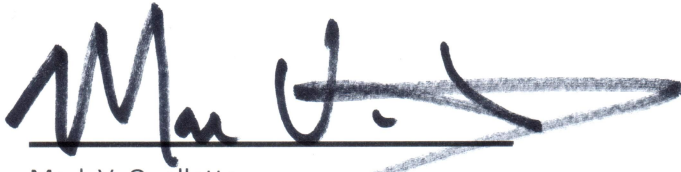

Bullet Five: A signed certification to the CEC that the ATTCP continues to meet the requirements of §10-103.1.

The only modifications or deviations to the CALCTP application, approved by the CEC on November 16, 2014, are the revisions to the certification and recertification curriculum for acceptance test technicians and acceptance test employers. These revisions were developed to meet the new and amended acceptance test requirements set forth in the 2022 edition of Title 24. Revisions to the curriculum were approved by the CEC on December 12, 2022.

By the signature below, CALCTP certifies that it meets all requirements for this program, as specified in its application and its amendments to its application approved by the CEC.

I, Signatory, certify that ATTCP-CALCTP continues to meet the requirements of Section 10-103.1.

A handwritten signature in black ink, appearing to read "Mark V. Ouellette", written over a horizontal line. The signature is stylized and includes a long horizontal stroke at the end.

Mark V. Ouellette  
CALCTP Administrator on behalf of the CALCTP Board
