Docketed Date:	4/30/2024

NOTICE OF RECEIPT PETITION FOR POST CERTIFICATION CHANGE ENTERPRISE EMERGENCY PEAKER PROJECT (01-EP-10C)

On March 14, 2024, the CalPeak Power-Enterprise (CalPeak) filed a Post-Certification Petition for Changes in Project Design, Operation or Performance and Amendments to the Commission Decision (Petition) ([TN #255290](#)) with the California Energy Commission (CEC) for the Enterprise Emergency Peaker Project (EEPP) pursuant to California Code of Regulations, title 20, section 1769.

The EEPP, a 49.5-megawatt (MW) simple-cycle, natural gas facility was certified by the CEC in June-2001 and began commercial operation in September-2001. The facility is at the southern end of North Enterprise Street in the City of Escondido, San Diego County.

SUMMARY OF PROPOSED CHANGES

The project owner seeks approval to modify the EEPP to allow:

- Installation of an interconnection of a proposed Battery Energy Storage System (BESS) project at the low side of the existing generation step-up (GSU) transformer at the EEPP and the use of the common facilities.
- Identifying Enterprise BESS LLC as the party that will have legal responsibility for the operation, compliance with any associated Commission Conditions of Certification, and compliance with applicable laws, ordinances, regulations, and standards (LORS) for the BESS project.

For additional information, the [CEC's project webpage](#), has a link to the petition accessible through the webpage in the box labeled "Compliance Proceeding." Click on the "Documents for this Proceeding (Docket Log)" option.

REVIEW PROCESS

This petition is reviewed pursuant to California Code of Regulations, title 20, section 1769. The review process includes an evaluation of the effect the change could have on the environment; the project's compliance with applicable laws, ordinances, regulations, or standards; and whether a change to, or deletion of any condition of certification adopted by the CEC in the final decision or subsequent amendments is required.

After staff has completed its independent review and analysis of this petition, the assessment will be published for public review and comment. Included in the staff analysis will be written notice of staff's intent to either process the proposed changes as a staff-approved project change or schedule it for consideration by the CEC at a regularly scheduled business meeting.

PUBLIC PARTICIPATION

This notice of receipt is being mailed to the CEC's EEPP mailing list of interested agencies, the public, and property owners that requested placement on the mailing list as well as to property owners within 1,000 feet of the facility site and 500 feet of the facility linear features (for example, pipeline). The notice is also being sent to the SITING Enterprise Emergency Peaker Project [subscription list](#). The subscription service is an automated CEC system by which information about this facility is emailed to parties who have subscribed. To subscribe, go to the [CEC's project webpage](#), cited above, scroll down the right side of the project webpage to the box labeled "Subscribe," and provide the requested contact information.

Any person may comment on the petition or the staff analysis when publicly available. The CEC encourages use of its electronic commenting system. To use the CEC's electronic commenting feature, go to the [CEC's project webpage](#), cited above, click on the "[Submit e-Comment](#)" link, and follow the instructions in the online form. Be sure to include the facility name in your comments.

Written comments, attachments, and associated contact information (for example, address, phone number, email address) become part of the viewable public record. This information may also become available via any internet search engine.

Written comments may also be mailed to:
