Hi Lisa,

I received a notice for the subject project and wanted to follow up that proposed project may impact the County of Orange/OCFCD's right-of-way or facilities. It's not quite clear from the site plan as it does not show the County/OCFCD's right-of-way, but offsite access road seems to be encroaching into the County's right-of-way/easement as well as the stormwater discharge line into the existing outfalls.

The county requires that any project which would affect the County/OCFCD's right-of-way or facilities shall be submitted for an encroachment permit for any inputs/comments. Please have the project proponent to determine the jurisdictional boundaries and their encroachment for the proposed scope of work and submit for the County's encroachment permit for further review and comments, if deemed necessary.

Thank you.

Warmest Regards,

Katie Park, PE

Hello,

This email serves as notification of receipt of an Opt-In Application under Public Resources Code 25519 for the proposed Compass Energy Storage project (24-OPT-02). This project is proposed in the city of San Juan Capistrano, California. The attached letter outlines project information and the reasons under Assembly Bill 205 why we are contacting you.

If you have questions, please contact Renee Longman, project manager and me, co-project manager.

We appreciate your timely responses and look forward to coordinating with you as the project moves forward.

Thank you,

Lisa Worrall
