Subject: Important Update: Carbon Removal Innovation Support Program (CRISP)

Dear parties interested in carbon removal,

We are writing to inform you about a temporary pause in solicitations for the Carbon Removal Innovation Support Program (CRISP). Due to the status of ongoing State budget negotiations, all CRISP solicitations are on hold until further notice.

We understand this news may impact your plans. Affected program elements include:

- **Cost Share for Federal Clean Energy Funding Opportunities (GFO-22-901):** This solicitation will remain closed until the budget is finalized.
- **Planned R&D and Community Engagement Solicitation:** The launch of this solicitation is now expected in FY 2025-26.

We apologize for any inconvenience this may cause. We will keep you informed of any developments regarding the budget and the CRISP program.

Information about the most recent budget proposal is at the California State Assembly Committee on Budget webpage, specifically the Subcommittee No. 4 on Climate Crisis, Resources, Energy, and Transportation: [California Assembly Committee on Budget webpage](#), which links to the [updated budget proposed](#) for programs including Carbon Removal.

Thank you for your continued interest in CRISP.

Sincerely,

The CRISP Program Team
