## **Lithium Storage Facility - A Bad Idea for Neighborhoods**

I greatly oppose the building of Compass Energy Storage Project so close to neighborhoods and wildlife. It is undesirable due to the high flammability of the product stored. This would create worry and potentially degrade property values and may cause fire insurance cancellation or increases for residents nearby (such as our family home). Property, people, and wildlife are subject to danger from fire, explosion, and smoke inhalation if this facility would be okayed. It is just not an appropriate site for this type of facility.

Thank you, Kelly Bridge, a resident and homeowner in Laguna Niguel Concord Hill tract since 1993.
