Opposing Installation of Lithium-Ion Battery Storage Facility

Please note that we very strongly oppose the change in zoning and installation of lithium-ion battery storage units by Engie North America, and Saddleback Church in San Juan Capistrano. This poses a very real threat to lives and homes in the San Juan Capistrano and Laguna Niguel areas. We have had several fires in this area over the years that we have lived here and installing a facility that has the potential for more fires and a large-scale disaster is completely irresponsible.
