Superfund Insurance Coverage

Is there Superfund insurance for this site and the toxic waste Lithium? The Federal Government requires this insurance. Our HOA Board was told 20% of the batteries would degrade and become waste after 8-10 years. That would be 220 containers of Lithium battery waste.in 8- 10 years. What is the plan to remove the toxic waste? What is the amount of insurance to ensure the public is not responsible for this expense?
