LMS-2023-01 What goes up must come down to be cost effective

LMS-2023-01 What goes up must come down to be cost effective

Hello CEC Commissioners,

Perhaps the CEC should ensure MIDAS downloads always work before requiring anyone to upload more than a small sample of

RIN data?

The CEC is not achieving its part of the LMS regulations for MIDAS.

The list below is San Diego Gas and Electric RINs where all data is blank, "null", in the hour of 19:00 on June 4, 2024.

There are nulls for MIDAS timestamps, this issue is a MIDAS issue. Please ensure MIDAS always provides correct data to

ensure no harm is caused to ratepayers.

LMS-2023-01 What goes up must come down to be cost effective

Hello CEC Commissioners,

Perhaps the CEC should ensure MIDAS downloads always work before requiring anyone to upload more than a small sample of RIN data?

Pursuant to Section 1623. Load Management Tariff Standard. (b), Publication of Machine-Readable Electricity Rates. No later than three (3) months after April 1, 2023, each Large IOU shall upload its existing time-dependent rates applicable to its customers to the Commission's Market Informed Demand Automation Server (MIDAS) database. Each Large IOU shall upload all time-dependent rates, including those approved after April 1, 2023, to MIDAS prior to the effective date of the time-dependent rates each time a time-dependent rate is approved by the rate-approving body and each time a time-dependent rate changes.

The time-dependent rates uploaded to the MIDAS database shall include all applicable time-dependent cost components, including, but not limited to, generation, distribution, and transmission. The Commission maintains public access to the MIDAS-database through an Application Programming Interface (API) that, provided a Rate Identification Number (RIN), returns information sufficient to enable automated response to marginal grid signals including price, emergency events, and greenhouse gas emissions.

The CEC is not achieving its part of the LMS regulations for MIDAS.

The list below is San Diego Gas and Electric RINs where all data is blank, "null", in the hour of 19:00 on June 4, 2024. There are nulls for MIDAS timestamps, this issue is a MIDAS issue. Please ensure MIDAS always provides correct data to ensure no harm is caused to ratepayers.
