Support EV Charging

I am urging the CEC to strongly support EV charging, especially for multi-family housing residents, renters, and rural drivers. As an EV driver, I enjoy the benefits of driving electric, including cleaner air and less noise.

Also, since California is outlawing the sale of all new gas-only vehicles in 2035, we truly need to strengthen and improve our current electric infrastructure to accommodate the increasing use of EVs.

Thank you for your consideration.
