Please fund EV charging

I have owned and driven an electric vehicle (EV) for over 10 years. I urge the CEC to strongly support EV charging, especially for multi-family housing residents, renters, and rural drivers. As an EV driver, I enjoy the benefits of driving electric. My "fuel" costs are low, especially since I charge my car with the solar panels on my home's roof. I also save money on maintenance. And more EVs means better air quality for our kids, grandkids and communities and improved public health. Please help fund EV charging for Californians.
