Not a time to pull back on EVs

I am urging the CEC to strongly support EV charging, especially for multi-family housing residents, renters, rural drivers, and places of work. As an EV driver, I enjoy the benefits of driving electric. I can save money on fuel and maintenance. And more EVs means better air quality for our kids and communities and improved public health. With cleaner air, it will motivate others to perhaps even get on a bike to commute. Please help fund EV charging for Californians.
