**mr**

I am an EV driver and am fortunate in being able to charge at home. Many multi-family housing residents and renters do not have that option. I am strongly urging the CEC to support EV charging, especially for multi-family housing residents, renters, and rural drivers. As an EV driver, I enjoy the benefits of driving electric. I can save money on fuel and maintenance. And more EVs means better air quality for our kids and communities and improved public health. Please help fund EV charging for Californians.
