Support EV Charging

I urge the CEC to strongly support EV charging. We must get off fossil fuels as quickly as we can for the sake of our climate and those most vulnerable to the impacts of poor air quality and extreme heat. Only with State support can we overcome the barriers to entry into the EV market for multi-family housing residents, renters, and rural drivers.

As an EV driver, I enjoy the benefits of driving electric. I save money on fuel and maintenance. And more EVs means better air quality for our kids and communities and improved public health. Please help fund EV charging for Californians.
