Stop the Battery Storage Facility at the Saddleback Church Property

Hello,

As a long time resident of Laguna Niguel living in very close proximity to the proposed site of a Lithium battery storage facility, I urge the commission not to allow this project to happen. This would be just below a very populated area and could cause long term health risks and fire danger. The property is just below the hills and this could potentially cause a major fire event with possible property loss and death to the local residents.

Again, I urge to not move forward with this project on this location.

Sincerely, Tim Sheehan
