CA EV Driver Seeks More Charging in Rural Areas

Iâ€™ve had my Hyundai IONIQ 5 for nine months and just love it! The economy, quietness, and simplicity of care far exceed even those of my previous hybrids (Prius and RAV4), to say nothing of the benefits to the atmosphere. The only drawback is the limited number of charging stations here in northern CA, specifically in Shasta, Trinity, Siskiyou, Modoc, and coastal counties. Every road trip must be scheduled around the availability of EV charging locations, which means my list of options is severely curtailed.

Please support the expansion of EV charging stations. Do NOT cut its funding!
Thank you.
