Please Support EV Charging

I am asking the CEC to support EV charging. I have owned and operated Electric Vehicles for over nine years. I love the idea that when I'm driving my EV I am not destroying the air we all breathe and I am reducing further damage to our atmosphere. My EV's require no routine maintenance such as no oil changes and are a pleasure to drive. It is imperative all people regardless of where they live have ready access to EV charging facilities. Please support funding for EV Charging in California.
