Continue Funding for EVs

I am urging the CEC to strongly support EV charging, especially for multi-family housing residents, renters, and rural drivers.

As a board member of a 77 unit condo building, we were able to benefit from funding to install chargers for our residents, and more have purchased EVs as a result.

As an EV driver, I enjoy the benefits of driving electric. I save money on fuel and maintenance. And more EVs means better air quality for our kids and communities and improved public health. Please help fund EV charging for Californians.
