Funding for EV chargers

I urge the CEC to wholeheartedly support EV charging, especially for multi-family housing residents, renters, and rural drivers. As an EV driver, I enjoy the benefits of driving electric. Not only do I save money on fuel and maintenance, I'm convinced that EVs contribute to better air quality, improved public health and less noise pollution. The uncertainty of finding a convenient EV charger is a deterrent to many potential EV owners. If this deterrent was eliminated, I believe many more consumers would buy EVs. Please help fund EV charging for Californians.
