Support for Light-Duty Hydrogen Stations

Dear CEC,

As the current owner of a Hydrogen Fuel Cell Electric Vehicle (FCEV) that I have operated for the past three (3) years, I request your support for continued investment in light-duty hydrogen stations and infrastructure. Providing Californians more than one alternative to internal combustion engine (ICE) vehicles allows the consumer to pick the vehicle that best fits their lifestyle and housing situation. Please continue funding light-duty hydrogen stations so every Californian can confidently purchase a Clean Vehicle in the future.

Regards,
Thomas Neveu
