## **Support Expanding EV Charging Infrastructure in California**

As a driver of an electric vehicle (EV), I'm writing to urge your strong support for expanding EV charging infrastructure throughout California, particularly for residents of multi-family housing, renters, and those living in rural areas.

My experience with EVs has been positive. I've benefited from significant cost savings on fuel and maintenance. Furthermore, widespread EV adoption will lead to cleaner air for our children, communities, and a healthier overall environment.

Therefore, I kindly request your continued support in funding initiatives that make EV charging accessible and convenient for all Californians.

Thank you for your time and consideration.

Sincerely,  
Joseph L. Noell
