EV charging

My friend just got his first electric car, and is learning about the limited # of places he can charge it.

I KNOW there is a need for more of those !

Now I urge the CEC to strongly support EV charging, especially for multi-family housing residents, renters, and rural drivers. As an EV driver myself, I enjoy the benefits of driving electric. I save money on fuel and maintenance, & don't worry about theft of a catalytic converter. More EVs means better air quality for ALL.

Please help fund EV charging for Californians.
