Just say NO!

This is a terrible idea. As a homeowner living in the Concord Hill area I am opposed to this project. It is next to impossible to get fire insurance in our area for our homes. If insurance companies are so concerned about underwriting policies due to fires I don't see how this project would be approved. SJC said no when the land was asked to be rezoned and now the company is going around the city too o move forward? None of the cities or constituents want this project. Please just say NO!
