## **Concern RE proposed battery storage site in San Juan Capistrano**

Please accept this letter as my opposition to the proposed battery storage site on Saddleback Church's property in San Juan Capistrano. My home is on the other side of the ridge in Laguna Niguel. This toxic waste site will reduce our property values and make our fire insurance rates even higher than they already are. The coastal commission and cities have spent much time and energy on revitalizing our reefs and reducing pollution running into our ocean. This battery storage site would essentially undo everything we have done to protect our coastline if there was a fire at the site (which is a well documented risk) or if there is a flood (this area is a known flood zone). Please send this project elsewhere such as in a minimally occupied desert where there are less risks to property, human life, and marine life. Thank you. Please keep my address confidential.
