## **Opposition**

With regard to Compass Energy's proposal to build a battery storage yard on land in San Juan Capistrano, I am appalled that these people couldn't get the required approval of local government (San Juan Capistrano and Laguna Niguel) so they are trying an end around by coming directly to you for approval. This is a grotesque proposal to place such a facility in such a sensitive area. Who is profiting off of this? The Church who is selling the land and Compass Energy. There is no regard for the concerns and objections of the local citizens demonstrated by this company. They are hiding from the local governments by trying to bypass and come directly to you. I vigorously oppose the approval of this facility.
