## **Opposition to the Battery Energy Storage System (BESS) Project**

Our family household with children and elderly family members are extremely concerned and opposed the BESS project. We have witnessed fires on the hill side and a fire just a few years ago and this would be deadly to many people living close. In fact our house is in the closest proximity to the proposed battery facility site. This can be a fire hazard and health hazard to the many families that live in Concord Hill right less than a 1,000 feet away.
