STOP this project NOW!

Seriously the current council has been changing zoning, making adaptations and plain old allowing the laws we as residents have put in place for important reasons! This is where it must STOP! Poisons being allowed to sit here and build up is NOT appropriate! We are not a broke city and even if we were getting close there are other far better, healthier and resident friendly to bring in! STOP this idiocy- no More poisons no more batteries no more drive thru™s NO more changing zoning! NO battery storage -period
R Kolander
