Remote Access Onlyvia Zoom™ <https://zoom.us/>,Meeting ID: **831 8224 4494** and Meeting passcode: **2024**

See Attendance Instructions.

The California Energy Commission (CEC) will host a workshop to explore recent and proposed updates to its California Energy Demand (CED) forecast methodology with an emphasis on the use of climate scenario data. The CED forecast will be included in the *2024 Integrated Energy Policy Report Update (2024 IEPR Update)*, the CEC's biannual energy policy report that is updated on alternate years such as 2024.

This workshop is part of the 2024 IEPR Update proceeding. Chair Hochschild is the CEC's Lead Commissioner for the 2024 IEPR Update with Vice Chair Gunda as the Associate Commissioner. A quorum of commissioners may participate, but no votes will be taken.

The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

The public can participate in the workshop consistent with the attendance instructions below.

Agenda

The workshop will explore recent and proposed updates to the CED forecast methodology. Presentation topics will include an overview of electricity load forecast methods, discussion of climate simulation modeling development, and the use of climate simulation and historical weather data in the demand forecast to support energy system planning and resiliency. There will be an opportunity for public comment.

A detailed final schedule will be posted prior to the workshop at [2024 IEPR Update Workshops, Notices, and Documents](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2024-integrated-energy-policy-report-update-0), <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2024-integrated-energy-policy-report-update-0>.

Background

California Public Resources Code Section 25301 requires the CEC to prepare an Integrated Energy Policy Report (IEPR) every two years that includes assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. On alternate years, such as for the 2024 IEPR Update, the CEC updates the statewide forecast of electricity demand.

This workshop aims to showcase newly available climate simulation data and analytic tools, to provide transparency around the CEC's efforts to develop climate-impacted forecast model inputs, and to collect input from stakeholders and others.

Attendance Instructions

Participants may join via Zoom by internet or phone.

- **To join via Zoom.** Click on <https://energy.zoom.us/j/83182244494?pwd=eDVMa2F6c002Ry95TlFuSG5tY3Fjdz09> or login in at <https://zoom.us/> and enter the Meeting ID **831 8224 4494** and passcode **2024** and follow all prompts.

To stop closed captioning, close the "Live Transcript" or select "Hide Subtitle" from the pop-up menu. While closed captioning is available in real-time, it can include errors.

Public Comment

Oral comments will be accepted at the workshop. Comments may be limited to three minutes or less per speaker and one person per organization. Depending on the number of members of the public seeking to make a comment, the facilitator may adjust the total time allotted, and the time allotted for each comment.

If participating via Zoom's online platform, use the "raise hand" feature to alert the administrator that you would like to make a comment during the public comment period.

If participating by telephone, press *9 to "raise your hand" and *6 to mute/unmute. An administrator will call on you by the last three digits of your phone number. Unmute your phone before introducing yourself and sharing your comment.

Written comments may be submitted to the Docket Unit by 5:00 p.m. on **August 13, 2024**.

The CEC encourages use of its electronic commenting system. Visit the [e-commenting page](https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=24-IEPR-03) at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=24-IEPR-03>, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document consistent with title 20 of the California Code of Regulations, section 1208.1. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number **24-IEPR-03** and "CED Methodology Updates" in the subject line and email to docket@energy.ca.gov.
