## **San Juan Capistrano BESS SITE LOCATION concerns**

I am not sure why this is even come too this where consideration for this storage facility so close to residential homes homes / schools (high school & community college) is even being considered. There have been multiple fires as well in this same area over the years and this is just going add additional risk that is not needed. Current insurance issues is also going to raise potential issues for an already difficult market for residents not only in our city of Laguna Niguel but also San Juan and Mission Viejo.

There has to be a better option or location for this facility
