Docket Number: 24-OPT-02

STOP APPROVAL OF THE LITHIUM STORAGE PLAN

PLEASE STOP APPROVAL OF THE LITHIUM STORAGE PLAN in 2024/2025. There are so many risks, potential fires and even death in having this storage plan approved in it's present location. It will back up to the homeowner's community where I live, as well as many others and if there is a fire our homes will be destroyed and property values will plummet.

Perhaps a more viable location for this facility would be in open land off the 241 toll road OR NOT AT ALL. Please don't put our families, communities, pets and nature in danger. THIS DOES NOT NEED TO HAPPEN AND SHOULD BE MOVED TO ANOTHER LOCATION ASAP.

Regards.
Mary Cranford
