## **BESS PLACEMENT**

As a 40 year resident of the city of Laguna Niguel, and weekly user of Camino Capistrano Road, I wish to convey my objection to the proposal for this battery storage facility in such a hazardous location. Proposing it adjacent to residential homes below fire prone hillsides is only inviting a future disaster. Also this "ey sore" will be visible from the freeway, and all residences downhill from their homes and a complete waste of land more suitable for much needed residential housing. Since the intended use is storage, it could and should be located away from high density areas and most certainly fire prone hillsides. Please consider this application for denial.
